

## WATER TESTING INFORMATION SHEET

Property owners with private wells that are located outside of the 1.5 mile radius from 1030 Water Street, No. Bennington (former Chemfab facility).

The State of Vermont is currently testing well water within a 1.5 mile radius. For those properties outside of the 1.5 mile radius, below is a list of laboratories that you may contact on own if you are interested in conducting your own well testing. Currently there are no in-state public or private laboratories that analyze for PFOA. We would recommend hiring an environmental consultant to assist with the sample collection and shipment to out-of-state lab.

### List of EPA Approved Laboratories for PFOA testing-EPA Method 537

<p><b>Accurate Environmental Labs</b> 505 S. Lowry Stillwater, OK 74074 405-372-5300 <a href="http://www accuratelabs.com">www accuratelabs.com</a></p>	<p><b>Pace Analytical Services, Inc.-Florida</b> 8 East Tower Circle Ormond Beach, FL 32174 386-672-5668 <a href="http://www.pacelabs.com">www.pacelabs.com</a></p>
