Re: FRALO SEPTECH™ polyethylene septic tanks

Mr. Jones:

This letter is written in response to your letter of September 4, 2003, requesting approval of the FRALO SEPTECH™ polyethylene septic tanks in accordance with the Environmental Protection Rules, Chapter 1, Wastewater System and Potable Water Supply Rules. The Rules, which became effective on August 16, 2002, were prepared by the Wastewater Management Division of the Vermont Agency of Natural Resources, Department of Environmental Conservation.

Section § 1-508, and Appendix 3-A of the Rules provide the minimum standards for sizing septic tanks as well as specifications and maintenance standards. Based on the information you have submitted, it appears that FRALO SEPTECH™ polyethylene septic tanks meet the requirements of the Rules and can therefore be used in septic tank installations in Vermont.

If you have any questions please contact me at 802-241-3686.

Sincerely,

A handwritten signature in black ink that reads 'Frank R. O'Brien'.

Re: SEPTECH™ Model ST 1000 E, high density polyethylene (HDPE) septic tanks

Mr. DeLawyer:

This letter is written in response to your submittal of March 28, 2005, requesting approval of SEPTECH™ Model ST 1000 E, polyethylene septic tanks in accordance with the Environmental Protection Rules, Chapter 1, Wastewater System and Potable Water Supply Rules, effective January 1, 2005.

Section § 1-508, and Appendix 3-A of the Rules provide the minimum standards for sizing septic tanks as well as specifications and maintenance standards. Based on the information you have submitted, it appears that SEPTECH™ Model ST 1000 E, polyethylene septic tanks meet the requirements of the Rules and can therefore be used in septic tank installations in Vermont.

If you have any questions, please contact me at 802-241-3686.

Sincerely,
