

# CHART OF EFFECT OF S.27 (ACT 133) FOR SINGLE FAMILY RESIDENCES ON THEIR OWN LOTS

12-Jul-02

**GENERAL:** SFRs with a permit must comply with or amend permit when changing flow, use, or modifying pws or ww systems

**All** modifications to flow, use or pws or ww systems after 7/1/07 require a permit including replacement of a failed pws or ww system

Note: The rules adopted under S.27 will have other exemptions for single family residences on their own lots.

SFR = single family residence  
pws = potable water supply  
ww = wastewater

12-Jul-02

**USE OF MINIMUM SITE CONDITIONS** under S.27 (Act 133)-- these apply if a permit is required and when a permit exemption requires compliance with the minimum technical standards

Note: replacement wastewater systems can always use the revised minimum site conditions, for lots in existence at any time including 30% slope; no planning process or zoning is required.
