PERMIT AND LICENSE INFORMATION

**SMALL BUSINESS FACT SHEET
BEAUTY OR HAIR SALON**

Hair styling, beauty shops, barbershops, and salons can be categorized together for the purposes of these informational guidelines.

DEPARTMENT OF ENVIRONMENTAL CONSERVATION

A hair salon is a public building since the public is served in it, and uses the building's water supply and wastewater disposal systems. A Wastewater System & Potable Water Supply Permit ([Sheet #1](#))* will be needed under the following conditions:

- Construction of a new building or renovation of existing space
- Changes in the water supply and wastewater disposal systems
- Increases in the number of chairs, or haircutting stations or an increase in employees
- Changing the use of an existing building to a hair salon

The extent of engineering analysis and review for the proposed and/or existing water supply and wastewater disposal systems (if not municipal) will depend upon the existing uses and the proposed changes. As part of the permit review, you may have to hire a professional engineer or licensed designer ([Sheet # 11](#)) to evaluate your existing systems and recommend whether improvements are required. Please contact the Permit Specialist or Regional Engineer in your Regional Office to further discuss your project.

DISTRICT ENVIRONMENTAL COMMISSION (ACT 250)

Construction of improvements for commercial purposes may require that you obtain an Act 250 permit. ([Sheet #47](#)*). If there is already an Act 250 permit on an existing commercial building, any changes may require an amendment. Contact the Act 250 Coordinator or Assistant Coordinator at the Regional Office for a jurisdictional ruling on your specific project.
