

**If you transport solid, hazardous, or residual waste for compensation in a vehicle / trailer on VT roads, you are a commercial hauler under VT law and you will need a state permit.**

**YOU WILL NEED A VT WASTE TRANSPORTER PERMIT IF:**

- You transport regulated quantities of hazardous waste; or
- You transport solid waste (includes liquids) or residual waste for compensation.

If you are not sure if you need a permit regarding the type of materials you are hauling, I would advise you to contact us.

The only exemption is if the waste transportation services are incidental to other services offered, and less than 4 cubic yards is transported at any time. Pickup trucks typically hold less than 4 cubic yards.

To comply, immediately submit the applications/forms listed to the right of this brochure for a new 5-year permit, which can also be found at the following link:

<http://dec.vermont.gov/waste-management/solid/waste-haulers>

All permits must be renewed by May 1<sup>st</sup> each year.

Once you complete the applications to your right, this process should take just a couple of days to process, as long as the following bullets are complete.

- all applications must be complete
- you must pass all criminal / environmental background information
- if your business is a corporation you must be registered with the Vermont Secretary of State's Corporation Division. If you are hauling from out-of-state you would need to register as a "foreign" corporation at the following link:  
<https://www.vtsosonline.com/online>
- or, if you are the only owner you must include your business name as "doing business as" (dba). For example: John Smith dba John's Rubbish Removal.

**Please keep in mind that "if" you are currently / or are planning to continue hauling without a permit, and you are pulled over for any violation by an Enforcement Officer, you will be fined.**

Please review this brochure for other important information and links to applications.
