Frequently Asked Questions

How do I keep my food scrap container clean?

You should rinse out your container after you empty it. Plastic grocery bags and trash bags are not compostable and should not be used to line your food scrap container. Get more tips at VTrecycles.com.

How do I avoid smell and pests?

Keep your container clean and covered, and empty it often – especially if you are putting meat, bones, and dairy in it. You can also keep your food scraps in the freezer to avoid smell and bugs.

Can I put meat and bones in the food scrap tote?

Yes! All food scraps are accepted by curbside food scrap pickup. *please note that pet and human waste should not be put in the food scrap tote*

English

Questions Fréquemment Posées

Comment garder mon récipient de compost propre?

Vous devriez rincer votre bac après l'avoir vidé. Les sacs d'épicerie en plastique et les sacs à ordures ne sont pas compostables et ne doivent pas être utilisés pour vos récipients de compost.

Comment éviter les odeurs et les parasites?

Gardez votre récipient propre et couvert et videz-le souvent - surtout si vous y mettez de la viande, des os et des produits laitiers. Vous pouvez également garder votre compost dans le congélateur pour éviter les odeurs et les insectes.

Puis-je mettre de la viande et des os dans le compost?

Oui! Le service de ramassage porte-à-porte collecte tous les restes de nourriture. *Veuillez noter que les déchets animaux et humains ne doivent pas être compostés*

Cesto Postavljena Pitanja

Kako održavati posudu za kompost čistom?

Trebali bi isprati vasu posudu nakon što je isprazniti. Plastične kese i kese za smeće nisu kompostne i ne mogu se upotrebljavati za oblaganje vase posude.

Kako da izbjegnem smrad i nepoželjne insekte/stetocine?

Drzati posudu cistu i pokrivenu, i prazniti je što cesce, posebno ako u nju stavljate meso, kosti, i mlijecne proizvode. Takodje mozete drzati vas kompost u zamrzivacu da bi ste izbjegli smrad i insekte.

Da li mogu li staviti meso i kosti u compost?

Da ! Svaki ostatak hrane je prihvacen za kompost.* Zivotinjski i ljudski otpad je neprihvatljiv za kompost*

Ginsi ya Kutengeneza Compost Mboleo

Je, ninaweza kuweka mboleo yangu safi?

Unapashwa kusuuza takataka yako baada ya kumwanga. Mifuko ya plastiki ya dukani na mifuko ya takataka haiwezi kumbolewa na haitakiwi kuwa vyombo vya kumboleo.

Je, niepuke harufu na vidudu?

Weka chombo chako safi na kifunikiwe, na mwanga acho mara kwa mara –hasa kama ulitia nyama, mifupa na vizaa vya maziwa. Unaweza pia kuweka mboleo ndani ya friza kwa kuepuka harufu na vidudu.

Je, ninaweza kuweka nyama na mifupa ndani ya mboleo?

Ndio ! Vikwazo vyote vinakubaliwa kuchukuliwa barabarani mahala ya ukusanyi.
