Montpelier, VT 05602-3520
Attention: Leslie Welts

Dear Agency of Natural Resources,

Friends of Wolcott Pond is a non-profit, charitable organization formed under the laws of the State of Vermont to **protect Wolcott Pond and other natural and scenic resources; to protect the natural, scenic and quiet recreational resources of Wolcott Pond as well as its watershed, water quality, wildlife habitat, natural shoreline cover, and surrounding lands while preserving and enhancing its wilderness-like character; and to serve as an advisor and an advocate regarding the management and use of Wolcott Pond and the surrounding lands.**

At the annual meeting of Friends of Wolcott Pond in August 2012, the members Voted unanimously to petition to the Agency of Natural Resources to designate Wolcott Pond a "Quiet Pond." The Board subsequently prepared and circulated a petition to members and others interested in the long-term protection of Wolcott Pond. Please find the signed petitions attached to this letter. The petitions contain 157 signatures from Vermont residents, Vermont landowners, and users of Wolcott Pond.

The petition states:

PETITION TO DESIGNATE WOLCOTT POND A "QUIET POND"

WE the undersigned petition The Vermont Agency of Natural Resources, the Water Resources Panel and the Town of Wolcott to approve the designation of Wolcott Pond as a quiet pond for the benefit of its recreation users with the inclusion of a single change in the rules, that is, the elimination of the use of internal combustion engines on the pond.

Wolcott Pond is an 86-acre pond in the Town of Wolcott with a public access. The pond has a 5-mile speed limit but is currently open to use by internal combustion engines. Each year the number of quiet users of the pond has increased. Many individuals and groups come to Wolcott Pond to kayak and canoe. In recent years the number of fishing boats using electric motors rather than internal combustion engines has increased dramatically. The cost of electric motors is no longer an obstacle to Vermonters who want to fish by boat. The 5 mile speed limit should discourage the use of higher speed boating, but since the signage is small and only posted on a bulletin board at the public landing, there are always some boaters who violate the speed limit using internal combustion boats. They not only disturb the quiet nature of the pond, but also produce pollution and a safety hazard to those who swim in the pond. The pond is used regularly for swimming either from the private camps or from boaters.

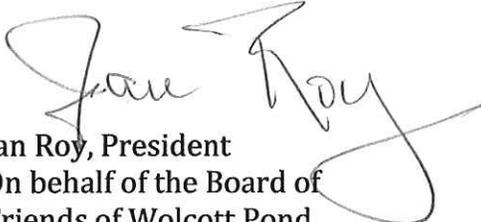

Wolcott Pond is unusual for its wilderness nature. There are only 5 private camps on the pond (only 4 are visible from the water). Four of the five camps are primitive: they have no running water or electricity. The fifth is a large camp with a composting toilet and generator. They are all seasonal camps and not year round homes. Thus, visitors using the pond are seldom subjected to urban noise such as lawn mowers or to electric light pollution.

This makes Wolcott Pond especially attractive to those seeking quiet enjoyment of a wilderness pond where they can fish quietly or watch wildlife. A 15 to 30 minute paddle in canoes, kayaks or rowboats can reach any point on the pond. A loon pair has nested on the pond every year since 1989, and in most years the loons have raised one or two chicks. Other regular wildlife sightings include various members of the duck family, deer and occasional moose.

There are other ponds in the vicinity including Lake Elmore, Lake Eligo, and Caspian Lake that are more appropriate for motor boats and higher speed boating, so that closing Wolcott Pond to internal combustion engines will not close off available recreation to those who seek to use internal combustion powered boats.

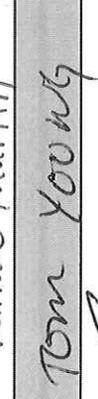

Please schedule a hearing on this petition in July or August 2013. Please correspond with us by email or telephone to Jan Roy, President 802 888 4803.

Respectfully submitted,

Jan Roy, President
On behalf of the Board of
Friends of Wolcott Pond

PETITION TO DESIGNATE WOLCOTT POND A "QUIET POND"

†
 †††††††††† WE the undersigned petition The Vermont Agency of Natural Resources, the Water Resources Panel and the Town of Wolcott to approve the designation of Wolcott Pond as a quiet pond for the benefit of its recreation users with the inclusion of a single change in the rules, that is, the elimination of the use of internal combustion engines on the pond.

Name (printed) Signature under name	Address (Town, State, Zipcode)	Email (to notify you of hearing dates)
Bill COTTEN <i>Bill Cotten</i>	2759 EAST HILL Rd Wolcott, VT. 05680	JOSIEREB@AOL.COM
