

Lake Memphremagog in Vermont

Towns
 Coventry, Newport Town
 Newport City, Derby

County
 Orleans County

Scale: 1:27,000

0 0.25 0.5 1 1.5 2 Miles

Map Not for Navigational Use

The map was produced with a bench mark depth of 207.29 meters based on the Canadian datum for the water level gage in Quebec which is equivalent to a depth of 680.25 feet as measured at the USGS gage in Newport City.

Appreciation for collecting soundings goes to the US Environmental Protection Agency and Quebec Ministry of Sustainable Development, Environment and the Fight against Climate Change, and for assistance in data compilation by the Canadian Hydrographic Service.
