

The following is a list of lakes greater than 10 acres in size. For the purposes of this list, the VT DEC Lakes and Ponds Program estimated lake area using the best available spatial data. Private ponds (as defined by Chapter 49A of Title 10, § 1442(15)) are excluded from the jurisdiction of the Shoreland Protection Act but are included in this list as both parcel ownership and the requirements for meeting the above referenced definition may change. For more information regarding the Shoreland Protection Act, visit the VT DEC Lakes and Ponds webpage:
