

Drinking Water Supplies

Drinking water systems within the watershed include impoundments, lakes, ponds, streams, well points, dug wells, gravel, and gravel screened wells, gravel open-end casings, rock wells and springs. Waters within the watershed that are designated as drinking water supplies are listed in Table A.4. Most other municipalities in the watershed use ground water wells for drinking water supplies

Surface waters used for public drinking water supplies are Lake John in Royalton. In addition, a surface water infiltration gallery for the White River in Royalton is currently in the process of being permitted. The number of surface waters used for private drinking water supplies is unknown.

Table A.4. Water Supply as an Existing Use within the White River Watershed.

Water Body	Location	Extent	Documentation
Lake John	Royalton	Lake John and waters within its watershed	Village of South Royalton and Fire Department #1 water supply
White River (new listing)	South Royalton	Intake at Carpenter Field	Village of South Royalton secondary water supply
