AUTHORIZATION TO CONDUCT NEXT FLOOD MEASURES

Pursuant to Section F of the Vermont Stream Alteration General Permit

Project Number (for administrative use only): ^{NFM} SA-04-100 _{CAB} -2016

Applicant Name: Andy Beshard

Phone: 752-6387

Mailing Address: ab.northeastern@gmail.com

Project Location: off Bartlett Hill Road, Cambridge, unnamed tributary

The Secretary of the Vermont Agency of Natural Resources (VT ANR) has determined that:

1. This authorizes the replacement of two existing culverts with one single barrel culvert that is 6' diameter (minimum) laid at the same grade as the stream bed, has invert buried 1' below existing streambed level (minimum), is as short as possible, and has inlet and outlet headwalls (laid up stone acceptable).
2. No work shall be performed on the property of others without their permission.
3. Work area shall be isolated from stream flow, sand bag and pump bypass is acceptable.
4. The proposed activity is eligible for coverage under the VT ANR Stream Alteration General Permit – Next Flood Measures.
5. The proposed activity will meet the terms and conditions of Section E of the General Permit provided:
 - a) The project is proportional to the threat and conditioned to cease when the threat to life or to improved property has ended.
 - b) The project will not result in a threat to life, public health or safety.
 - c) The project will meet the standards detailed in subsection E.2.1 and E.2.2 of the General Permit.
 - d) The project will meet Stream Alteration Standards to the greatest extent possible.

If there are any changes in the project plan or deviation in construction from what is described in this authorization, the Permittee must notify the River Management Engineer immediately.

If the project is constructed as you have described, as shown on the above referenced approved plans and according to the above conditions, there is no reason to expect any violation of Vermont Water Quality Standards.

Signed this 25th day of March, 2016
 Alyssa B. Schuren, Commissioner
 Department of Environmental Conservation

This authorization expires December 31, 2016.
