RE: Comments on Former Chemfab 2021 Annual Monitoring Report: Corrective Action Areas-Operable Unit B Report, Prepared by Barr Engineering, North Bennington and Bennington, Vermont (SMS Site #20164630)

Dear Mr. Angier:

The Vermont Agency of Natural Resources (ANR), Sites Management Section (SMS) has received and reviewed the Barr Engineering March 2022 report titled, "2021 Annual Monitoring Report: Corrective Action Areas-Operable Unit B, North Bennington and Bennington, Vermont". Barr has done a good job of implementing the changes required in SMS's April 29, 2021 letter. Based on these modifications to the report having been made, and the content of the 2021 report, the SMS has no comments on the report.

Should you have any questions with the content of this letter, please feel free to contact John Schmeltzer or me.

Sincerely,

A handwritten signature in blue ink that reads "Richard Spiese".

Richard Spiese, Project Manager  
Sites Management Section
