RE: Comments on Former Chemfab 2023 Annual Monitoring Report: Corrective Action Areas-Operable Unit B Report, Prepared by Barr Engineering, North Bennington and Bennington, Vermont (SMS Site #20164630)

Dear Mr. Angier:

The Vermont Agency of Natural Resources (ANR), Sites Management Section (SMS) has received and reviewed the Barr Engineering March 2024 report titled, "2023 Annual Monitoring Report: Corrective Action Areas-Operable Unit B, North Bennington and Bennington, Vermont". Barr has done a good job of following up on the 2022 report with updates to site work that occurred in 2023. Based on the information submitted in the 2023 report, the SMS has no comments on the report.

I look forward to reviewing the 2024 report once all the work this year is complete. Should you have any questions with the content of this letter, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Richard Spiese".

Richard Spiese, Project Manager
Sites Management Section
