No.	5 5 5 S	Activity	SFY26 Draft Budget Value	Focus of Funds	Are these projects required by any law or regulation?	Geographic Availability	Land Use Sector	Sector Key
1.1	Water Budget Statutory Priority Tier 1 (Iter Agency of Natural Resources, Department of Environmental Conservation, Clean Water Intiative Program	Water Quality Restoration Formula Grants to Clean Water Service Providers & O&M	\$ 7,210,000	To find, design, construct, and maintain diverse natural resource, stormwater, and in some cases agricultural projects, that provide measurable reductions in phosphorous pollution to meet specific targets.	No, projects are done voluntarily	Lake Champlain Basin, Lake Memphremagog Basin		Developed Lands Natural Resources
1.2	Agency of Natural Resources, Department of Environmental Conservation, Clean Water Intiative Program	Basin Planning, Basin Water Quality Council Participation, Education, and Outreach	\$ 750,000	To enhance regional coordination on identification and planning for local watershed priorities with partners listed in statute (watershed organizations, conservation districts, and regional planning commissions).	Planning supports identification of voluntary and regulatory priorities	Statewide		Roads Wastewater
1.31	Agency of Natural Resources, Department of Environmental Conservation, Clean Water Intiative Program	Statewide Non- Regulatory Clean Water Projects	\$ 5,000,000	To find, design, construct, and maintain diverse natural resource, stormwater, and in some cases agricultural projects. This includes dam removals, and river corridor easement purchases. All projects must meet at least one of five goals: a. Protect high quality waters, b. Maintain or improve water quality, c. Restore degraded or stressed waters, d. Create resilient watersheds and communities, or e. Support the public's use and enjoyment of the State's waters.	No, projects are done voluntarily	Statewide		
1.32	Vermont Housing and Conservation Board	Land Conservation and Water Quality Projects	\$ 2,000,000	To purchase permanent conservation easements and install enhanced water quality protections like wetland protection zones.	No, projects are done voluntarily	Statewide	Ø	
1.4	Agency of Agriculture, Food and Markets	Water Quality Grants to Partners and Farmers	\$ 13,000,000	To support education and technical assistance for farms as well as to find, design, and construct pollution prevention projects on farms.	Yes and no. Some projects help farmers comply with the Required Agricultural Practices and others are done voluntarily	Statewide	A	
1.51	Agency of Agriculture Food and Markets	Program Support	\$ 1,000,000	To support staff time at the Agency of Agriculture Food and Markets to perform foundational clean water activities like permitting, investigations and complaints, farm inspections and technical assistance.	Staff supports both voluntary and regulatory efforts	Internal, funds operations	A	
1.52	Agency of Natural Resources, Department of Environmental Conservation, Clean Water Intiative Program	Program and Partner Support	\$ 2,055,112	To support a range of initiatives that ensure the success of Vermont's Clean Water Act such as organizational capacity development, improvements to clean water tracking and accounting tools and methodologies, and water quality monitoring. Exact initiatives are articulated in the Clean Water Initiative Program's Annual Spending Plan.	Supports capacity for both voluntary and regulatory efforts	Statewide, funds partners; internal, funds operations		
Clean	Water Budget Statutory Priority Tier 2 (Iter	ms of Equal Priority)						
2.11	Agency of Natural Resoruces, Department of Forests, Parks and Recreation	Forestry Water Quality Practices and Portable Skidder Bridges	\$ 150,000	To support State staff in performing outreach and education on the forestry acceptable management practices and to cost share on portable skidder bridges; a practice that prevents erosion around stream crossings at logging sites.	Yes, this funds technical assistance and equipment to comply with forestry sector acceptable management practices	Statewide, funds skidder bridge cost shares; internal, funds operations	ø \$	
2.12	Agency of Natural Resoruces, Department of Forests, Parks and Recreation	Implement BMPs at State Forests, Parks, and Recreational Access Roads	\$ 750,000	To find, design, and construct clean water improvements to state- managed roads and trails at State Forests, Wildlife Management Areas, State Parks, and recreational access points.	No, projects are done voluntarily	Internal, funds operations	s	
2.21	Agency of Transportation	Municipal Roads Grants-in-Aid (MRGP)	\$ 3,000,000	These projects provide financial assistance to municipalities to implement projects like drainage ditches, removal of high road shoulders, stabilization of gully deterioration and more.	Yes, projects help towns comply with the Municipal Road General Permit	Statewide	s	
2.22	Agency of Transportation	Municipal Better Roads (MRGP)	\$ 1,750,000	Construction projects under this line item are quick, low-cost projects that enhance road resilience while simultaineously protecting water quality. Funds only available for municipalities.	Yes, projects help towns comply with the Municipal Road General Permit	Statewide	s
