COMMUNITY

"ECO AmeriCorps members have an impact in both the organization and the community in which they serve." - Elly Ventura, ECO Supervisor

ABOUT US

ECO AmeriCorps' focus is to provide capacity for organizations to complete projects around the state within water quality, waste management, and conservation fields. This is accomplished through supporting our members, providing professional development, mentoring, and a sense of community.

We partner with local municipalities, conservation districts, solid waste management districts, other state departments, and non-profits to host AmeriCorps members

OUR MISSION

Providing passionate people the opportunity to serve the environmental needs of Vermont communities.

POTENTIAL PROJECTS:

- Soil and water sample collection
- Conducting urban tree inventories
- Invasive species control
- Restoring riparian areas
- Grant writing
- Macroinvertebrate studies
- Wetland delineations
- GPS/GIS surveying
- Educational outreach
- And much more...

TIME COMMITMENT:

Service term is 11 months beginning in September and ending the following August. Members are required to serve a minimum of 1,700 - 40 hours per week.
