

Vermont Air Quality and Climate Division Mid-Size Wood Fuel Burning Equipment
 Fuel Type/ Fuel Consumption Record Keeping

YEAR

JAN										
FEB										
MAR										
APR										
MAY										
JUN										
JUL										
AUG										
SEP										
OCT										
NOV										
DEC										
Total										

Complete the form by adding the type of fuel used (e.g. pellets, chips, cordwood) and the tons of the fuel consumed in that month.*

Pursuant to 5.205(b)(3) of the Vermont Air Pollution Control Regulations owners or operators of mid-size wood fuel burning equipment are required to maintain records of fuel type and fuel consumption in the equipment and keep those records for a minimum of 5 years.

EXAMPLE:	NOV	Pellet	<-----	Fuel Type
		138	<-----	Fuel
	DEC	Pellet		Consumption
		187		(in tons)

* For cordwood, assume 2.6 tons per cord.
