RE: Transfer of Ownership of Air Pollution Control Permit #AOP-03-009
Hale Road Main Mill

Dear Mr. Hawley:

The Vermont Agency of Natural Resources (ANR) Department of Environmental Conservation (DEC) Air Quality & Climate Division (Agency) received an application for Transfer of Ownership from HBH Holdings, LLC requesting transfer of permit responsibility, coverage and liability to same, of the Air Pollution Control Permit #AOP-03-009 issued on 02/06/2008 to HBH Prestain, Inc. for the facility located on Hale Road Main Mill, East Arlington, VT (copy enclosed). HBH Holdings, LLC has attested to their legal ownership and/or rights and interests in the facility. It is the Agency's understanding that this transfer of ownership does not affect the operation of the facility and will not involve the addition of new air contaminant generating equipment or increases in permitted emissions. Accordingly, the Agency expects to incorporate the changes related to the transfer of ownership into the above-referenced permit the next time the Agency reissues or renews the permit. In the meantime, all terms and conditions of the above-referenced permit remain in full force and effect and are binding on HBH Holdings, LLC.

Please note this letter does not authorize any modifications, as defined by the Vermont Air Pollution Control Regulations, to the facility covered by the permit referenced above. Prior to commencing any modifications, HBH Holdings, LLC must obtain any necessary approvals from the Agency. Such modifications may include but are not necessarily limited to installation of any new or replacement equipment that generates air pollution emissions or changes to operations that may increase air pollution emissions.

If you have any questions or comments, please feel free to contact Marty Gildea by phone at (802) 377-2800, by email at martin.gildea@state.vt.us, or in writing at the above address.

Sincerely,

A handwritten signature in cursive script that reads "Heidi Hales".
