Note : *Failure to fill out this form and register may result in **revocation of permit authority**.*

Facility Name :

Facility Location :

Person Completing Inventory :

Email Address :

CY 2019 Total Materials Produced (tons/year) :

CY 2019 Total gallons of diesel fuel consumed in stationary and non-road engines (excluding highway vehicles) :

Does this facility utilize dust controls on all crushing, screening and conveying equipment as necessary to minimize emissions? Please check : [yes] or [no]

If the facility *does utilize* dust controls please provide :

The type of emissions controls check each that apply : [wet suppression] [baghouse] [covers]

[other emissions controls] (please specify) :

For Baghouses : The date you last inspected the collectors :

For Baghouses : The date of most recent bag replacement :

Controls for Yard Dust : Please read the following statement and check the box if these measures are being followed :

*I acknowledge that the Vermont Air Pollution Control Regulations require me to take reasonable precautions to prevent particulate matter dust from becoming airborne including from all process operations, materials handling, and on premise traffic areas. Further it is understood that I am required to maintain and operate my facility including associated air pollution control equipment in a manner consistent with good air pollution control practice for minimizing emissions.*
