

Vermont Department of Environmental Conservation
2019 Air Contaminant Registration

\$500 Registration fee for sources emitting less than 5 tons: Feed Mills

The information requested below will allow the Agency to estimate your actual annual air contaminant emissions for tracking purposes in the Air Quality and Climate Division. Please fill out this form providing the information requested for calendar year 2019 for your facility.

Please mail the forms by February 1, 2020 to :

Or, email to:

Air Quality and Climate Division, Attn : Air Registration ANR.AirRegistration@vermont.gov
Vermont Department of Environmental Conservation
One National Life Drive, Davis 4
Montpelier, VT 05620-3802

Don't forget to sign and return the enclosed [Certification of Information Accuracy](#) form.

\$500 Registration Fee Source Category: Feed Mills

Facility Name :

Facility Location :

Person Completing Inventory :

Email Address :

Please provide the requested data below for CY 2019 operations :

Total Quantity of feed products produced (tons) :

Total Quantity of feed products pelletized (tons) :

(A). Do you use any as-purchased material or supplement containing chromium greater than 0.1% and/or manganese greater than 1.0% (to assess Subpart DDDDDDD applicability)? check [Yes] or [No]

if the answer to (A) above is No, you have completed this form and may stop here. If the answer is Yes, please continue :

Do you utilize a control device for the pelletizing operation? check [Yes] or [No]

The type of control device :

The date you last inspected the control device :

Control device efficiency (%) :

(OVER)

If material or supplement containing chromium greater than 0.1% and/or manganese greater than 1.0% is handled in other areas of the mill please complete the sections below :

For Feed processing operation containing chromium or manganese :

Do you utilize a control device for this operation? check [Yes] or [No]

The type of control device :

The date you last inspected the control device :

Control device efficiency :

For Loadout operation :

Do you utilize a control device for the loadout operation? check [Yes] or [No]

The type of control device :

The date you last inspected the control device :

Control device efficiency :

Controls for Yard Dust : Please read the following statement and check the box if these measures are being followed :

I acknowledge that the Vermont Air Pollution Control Regulations require me to take reasonable precautions to prevent particulate matter dust from becoming airborne including from all process operations, materials handling, and on premise traffic areas. Further it is understood that I am required to maintain and operate my facility including associated air pollution control equipment in a manner consistent with good air pollution control practice for minimizing emissions.
