
Vermont Agency of Natural Resources
2019 Air Pollutant Emissions Inventory

Internal Combustion Source
For Criteria Pollutants

The information requested below will allow the Agency to estimate your actual annual air contaminant emissions. Please fill out this form providing the information requested for calendar year 2019 for each air pollution source at your facility. Use a single, duplicated form for each source at your facility that you did not receive a pre-filled form for in the annual mailing. In following years, if your facility emissions are greater than 5 tons annually, your facility will continue to receive these forms with information from the prior year displayed on them.

If you have further questions about the required data see the enclosed Source Identification and Criteria Pollutant Form Instruction Sheets, which are also available at : <http://dec.vermont.gov/air-quality/point-source-registration>
