Administrative Procedures – Economic Impact Analysis

Instructions:

In completing the economic impact analysis, an agency analyzes and evaluates the anticipated costs and benefits to be expected from adoption of the rule; estimates the costs and benefits for each category of people enterprises and government entities affected by the rule; compares alternatives to adopting the rule; and explains their analysis concluding that rulemaking is the most appropriate method of achieving the regulatory purpose.

Rules affecting or regulating schools or school districts must include cost implications to local school districts and taxpayers in the impact statement, a clear statement of associated costs, and consideration of alternatives to the rule to reduce or ameliorate costs to local school districts while still achieving the objectives of the rule (see 3 V.S.A. § 832b for details).

Rules affecting small businesses (excluding impacts incidental to the purchase and payment of goods and services by the State or an agency thereof), must include ways that a business can reduce the cost or burden of compliance or an explanation of why the agency determines that such evaluation isn't appropriate, and an evaluation of creative, innovative or flexible methods of compliance that would not significantly impair the effectiveness of the rule or increase the risk to the health, safety, or welfare of the public or those affected by the rule.

1. TITLE OF RULE FILING:

Environmental Citations

2. ADOPTING AGENCY:

Agency of Natural Resources

3. CATEGORY OF AFFECTED PARTIES:

LIST CATEGORIES OF PEOPLE, ENTERPRISES, AND GOVERNMENTAL ENTITIES POTENTIALLY AFFECTED BY THE ADOPTION OF THIS RULE AND THE ESTIMATED COSTS AND BENEFITS ANTICIPATED:

Minimal to no economic impact is anticipated to individuals or entities who violate Agency of Natural Resource laws and permits because the penalty amounts are not substantially changing.

To the extent programs within the Agency of Natural Resources are able to employ the compliance tool of civil citations more frequently as a result of this

Economic Impact Analysis

rule amendment, there may be a minor increase to the overall amount of penalties assessed, monies that are deposited into the General Fund.

Because the Agency's overall goal is a reduction in environmental violations (and a concomitant reduction in necessary enforcement), the Agency is not inclined to predict the amount of potential increase in penalties that will be assessed and collected based on potential increased use of this tool. However, the Agency is able to provide the following numbers to provide context on the number of citations issued and total penalty amounts:

Year	# of Citations	Assessed	Received
2013	20	\$8,300.00	\$6,800.00
2014	36	\$21,150.00	\$19,378.00
2015	31	\$15,800.00	\$14,300.00
2016	14	\$11,100.00	\$6,600.00
2017	24	\$14,300.00	\$12,260.00
2018	27	\$21,900.00	\$15,900.00
2019	35	\$22,050.00	\$10,050.00
Total	187	\$114,600.00	\$85,288.00

4. IMPACT ON SCHOOLS:

INDICATE ANY IMPACT THAT THE RULE WILL HAVE ON PUBLIC EDUCATION, PUBLIC SCHOOLS, LOCAL SCHOOL DISTRICTS AND/OR TAXPAYERS CLEARLY STATING ANY ASSOCIATED COSTS:

No general economic impact is anticipated for schools. To the extent a school violates an Agency of Natural Resource law or permit, minimal to no economic impact is anticipated because the penalty amounts are not substantially changing.

5. ALTERNATIVES: *CONSIDERATION OF ALTERNATIVES TO THE RULE TO REDUCE OR AMELIORATE COSTS TO LOCAL SCHOOL DISTRICTS WHILE STILL ACHIEVING THE OBJECTIVE OF THE RULE.*

An alternatives analysis is unnecessary as no general economic impact is anticipated for schools.

6. IMPACT ON SMALL BUSINESSES:

Economic Impact Analysis

INDICATE ANY IMPACT THAT THE RULE WILL HAVE ON SMALL BUSINESSES (EXCLUDING IMPACTS INCIDENTAL TO THE PURCHASE AND PAYMENT OF GOODS AND SERVICES BY THE STATE OR AN AGENCY THEREOF):

No general economic impact is anticipated for small businesses. To the extent a small business violates an Agency of Natural Resource law or permit, minimal to no economic impact is anticipated because the penalty amounts are not substantially changing.

7. SMALL BUSINESS COMPLIANCE: *EXPLAIN WAYS A BUSINESS CAN REDUCE THE COST/BURDEN OF COMPLIANCE OR AN EXPLANATION OF WHY THE AGENCY DETERMINES THAT SUCH EVALUATION ISN'T APPROPRIATE.*

A small business that complies with Agency of Natural Resources laws and permits will not be impacted by this rule amendment.

8. COMPARISON:

COMPARE THE IMPACT OF THE RULE WITH THE ECONOMIC IMPACT OF OTHER ALTERNATIVES TO THE RULE, INCLUDING NO RULE ON THE SUBJECT OR A RULE HAVING SEPARATE REQUIREMENTS FOR SMALL BUSINESS:

This rule amendment does not substantially change the penalty amounts for violations of Agency of Natural Resource laws and permits. In the alternative, were the Agency to reduce the penalty amounts, the reduction may result in lower compliance and prevent citations from being effective compliance tools. The Agency could also propose higher penalty amounts, but the Agency's goal was to identify an amount commensurate with the types of violations for which the Agency would issue a civil citation in lieu of full civil enforcement proceedings. The Agency believes the proposed amounts are sufficient to achieve deterrence while not being unreasonable.

9. SUFFICIENCY: *EXPLAIN THE SUFFICIENCY OF THIS ECONOMIC IMPACT ANALYSIS.*

This economic analysis provides the Agency's best assessment of the economic impact of this rule amendment based on the information available.

Administrative Procedures – Environmental Impact Analysis
