

# Introduction to the ASTM Guide for Greener Cleanups

Co-sponsored by USEPA and VTDEC

The new **Investigation and Remediation of Contaminated Properties Rule (I-Rule)** is coming soon. It will require an analysis of cleanup options that reduce the environmental footprint of remediation activities at sites in Vermont. By participating in this workshop, attendees will be introduced to the ASTM E2893 - Standard Guide for Greener Cleanups protocol, its benefits, and how it relates to the I-Rule. Additionally, an introduction to greener cleanup fundamentals and related federal policies will be provided.

**This workshop is FREE!!!** Participants can attend in person or via webinar. The webinar link will be provided following registration.

**When:** February 23, 2017

**Where:** Pavilion Auditorium  
109 State Street  
Montpelier, VT

**Time:** 9:00 am - 12:30 pm

Register for the workshop at [www.trainex.org/IntroASTMgc](http://www.trainex.org/IntroASTMgc).
