

State of Vermont, Agency of Natural Resources
Notice of Cancellation of Public Hearing
Vermont Infrastructure State Implementation Plan Elements

Notice is hereby given that the Vermont Air Quality and Climate Division (AQCD) has cancelled the March 15, 2017 public hearing on the Vermont Infrastructure State Implementation Plan (SIP) Elements. The hearing is cancelled because the AQCD did not receive a request to hold the hearing by the deadlines outlined in the Notice of Intent to Revise the Infrastructure State Implementation Plan Elements for Air Quality.

The Vermont AQCD is proposing revisions to the Vermont Infrastructure SIP elements to address federal requirements of the Clean Air Act (CAA) sections 110(a)(1) and 110(a)(2) with respect to the National Ambient Air Quality Standards (NAAQS) for fine particulate matter (PM_{2.5}), which were revised on December 14, 2012. The proposed infrastructure SIP revisions are available on the AQCD's website at <http://dec.vermont.gov/air-quality/planning/sip> and at the AQCD offices located in the Davis Building, Second Floor, 1 National Life Drive, Montpelier, VT 05620.

Written comments on the proposed infrastructure SIP element revisions must be received by the Air Quality and Climate Division by 5:00pm EST on March 22, 2017.

All written comments must be mailed or emailed to:
