

No.	Agency	Activity	Focus of Funds	Are these projects required by any law or regulation?	Geographic Location or Recipient Availability	Sector
Clean Water Budget Statutory Priority Tier 1 (Items of Equal Priority)						
1.1	ANR-DEC (C)	Water Quality Restoration Formula Grants to Clean Water Service Providers &	To find, design, construct, and maintain diverse natural resource and stormwater-type practices that provide measurable reductions in phosphorous pollution	No, projects are done voluntarily	Lake Champlain Basin, Lake Memphremagog Basin	   
1.2	ANR-DEC (C)	Basin Planning, Basin Water Quality Council Participation, Education, and Outreach	To enhance regional coordination on identification and planning for local watershed priorities	N/A, not for projects	Statewide, but funds only available to organizations listed in law: Regional Planning Commissions, Natural Resource	    
###	ANR-DEC (C)	Statewide Non-Regulatory Clean Water Projects	To find, design, construct, and maintain diverse natural resource and stormwater-type practices. Also includes dam removals, and river corridor easement purchases. All projects must meet at least one of five goals listed out in Vermont law: a. Protect high quality waters, b. Maintain or improve water quality. c. Restore degraded d. Purchase permanent conservation easements and e. Install enhanced water quality protection zones.	No, projects are done voluntarily	Statewide	   
###	VHCB	Land Conservation and Water Quality Projects	To purchase permanent conservation easements and install enhanced water quality protections like wetland protection zones.	No, Projects are done voluntarily	Statewide	
1.4	AAFM	Water Quality Grants to Partners and Farmers	To provide education, technical assistance, and agricultural practices.	Yes and no. Some projects help farmers comply with the Required Agricultural Practices are others are done voluntarily	Statewide	
###	AAFM	Program Support	To support staff time at the Agency of Agriculture Food and Markets to perform foundational clean water activities like permitting investigations and complaints farm inspections	N/A, not for projects	Internal, funds operations	
###	ANR-DEC (C)	Program and Partner Support	To support a range of initiatives that ensure the success of Vermont's Clean Water Act such as organizational capacity development, improvements to clean water tracking and accounting tools and methodologies, and water quality monitoring. Exact initiatives are articulated in the Clean Water Initiative Program's Annual Spending Plan.	N/A, not for projects	Statewide	    
Clean Water Budget Statutory Priority Tier 2 (Items of Equal Priority)						
###	ANR-FPR	Forestry Water Quality Practices and Portable Skidder Bridges	To support State staff in performing outreach and education on the forestry acceptable management practices and to cost share on portable skidder bridges; a practice that prevents erosion around stream crossings at	Yes, this funds technical assistance while complying with regulations in the Forestry Management Practices.	Internal, funds operations. Skidder bridge cost shares available	 
###	ANR-FPR	Implement BMPs at State Forests, Parks, and Recreational Access	To find, design, and construct clean water improvements to state-managed forest roads and trails.	No, projects are done voluntarily	Internal, funds operational improvements at State	
###	VTrans	Municipal Roads Grants-in-Aid (MRGP)	These projects provide financial assistance to municipalities to implement projects like drainage ditches, removal of high road shoulders, stabilization of gully deterioration and more.	Yes, projects to help towns comply with the Municipal Road General Permit	Statewide	
###	VTrans	Municipal Better Roads (MRGP)	Construction projects under this line-item are quick, low-cost projects that enhance road resilience while simultaneously protecting water quality.	Yes, projects help towns comply with the Municipal Road General Permit.	Statewide	

###	ANR-DEC	Municipal Three-Acre General Permit and MS4 ⁴	To design and construct stormwater projects that help schools and municipalities capture and clean rainwater and snowmelt on site.	Yes, projects help public schools and Municipal Separate Storm Sewer System towns meet stormwater regulatory permit requirements	Lake Champlain Basin, Lake Memphremagog Basin	 
2.3	VHCB	Water Quality Farm Improvement and Retirement Projects	To fund farm infrastructure and equipment improvements that have a water quality benefit as well as to purchase, retire and permanently conserve parcels of land perviously under agricultural production.	Yes and no. Some projects help farmers coply with the Required Agricultural Practices and others are done voluntarily.	Statewide	
2.4	ANR-DEC (Technologies or Practices to Improve Water Quality	To fund new and creative approaches towards clean water.	N/A	N/A	
Clean Water Budget Statutory Priority Tier 3						
3.1	ANR-DEC (Developed Lands Implemen	To design and construct stormwater projects that help private landowners capture and clean rainwater and snowmelt on site.	Yes, projects help private landowners meet regulatory operational stormwater permit requirements	Lake Champlain Basin, Lake Memphremagog Basin	
Clean Water Budget Other Priorities						
4.1	ANR-DEC (Lakes in Crisis Fund	To implement the Crisis Response Plans or Lakes in Crisis Orders including ongoing water quality monitoring activities in Lake Carmi	No, projects are done voluntarily	Lake Carmi	
4.2	AoA	Stormwater Utility Payments (\$25K each)	These funds are used by municipalities to establish and maintain stormwater utilities.	No, stormwater utilities are established voluntarily by participating towns	Lake Champlain Basin, Williston, Colchester, Burlington, South Burlington, and St	
4.3	ACCD	Better Connections and Dow	Funds from this line-item help municipalities incorporate stormwater management strategies into transportation and community revitalization plans.	No, projects are done voluntarily	Statewide	 
4.4	ANR-DEC (State Match to Clean Water State Revolving Fund (CWSRF) Federal Grant ⁶	To populate the State's share of the Clean Water State Revolving Fund which provides low-interest loans for design and construction of divrese natural resource and stormwater-type practices on both public and private lands.	No, projects are done voluntarily	Statewide, priority given to municipal projects	  
4.5	ANR-DEC (Municipal Pollution Control C	To help municipalities fund stormwater, sewage, or waste infrastructure improvements.	No, projects are done voluntarily	Statewide, available only to municipalities
