

# Drinking Water & Groundwater Protection Division

## Fees

Effective July 1, 2015

### Indirect Discharge Permits and Underground Injection Control Permits

Issued Under 10 VSA Chapter 47 & 10 VSA § 1272

An applicant or permittee regulated under Chapter 47 is subject to three different fees:

- 1. Administrative Processing Fees** apply to indirect and UIC applications for new/original permits, permit amendments, transfer of permit and renewal permits including individual and general permits. The fee is \$240.00 per application.
  
- 2. Application Review Fees are payable for review of**
  - permit applications for new/original projects
  - applications for permit amendment for increased flows, and
  - applications for permit amendment for modification or replacement of system

The application review fee rate depends on the type of permit or discharge.

<b>Permit / Discharge</b>	<b>Application Review Fee Effective 7/1/2015</b>
Indirect discharge – original application, amendment application for increased flows or amendment application for modification or replacement of system	\$1,755.00 plus \$0.08 per gallon of design capacity above 6,500 gallons per day
Discharge authorized by UIC original permit  (applications where the discharge meets groundwater enforcement standards at the point of discharge)	\$500.00 plus \$0.10 for each gallon per day over 2,000 gallons per day

<p>Discharge authorized by UIC original permit</p> <p>(applications where the discharge meets groundwater enforcement standards at the point of compliance)</p>	<p>\$1,500.00 plus \$0.20 for each gallon per day over 2,000 gallons per day</p>
---	--

**Note:** The application review fee does not apply to indirect and UIC applications for renewal, transfer or minor amendment of an individual permit. Below is the list of minor amendments:

### **List of Minor Permit Amendments for Chapter 47 Permits**

Only the administrative processing fee is required for permittee requests for minor permit amendments. Minor permit amendments require minimal or no technical staff review and include the following permit actions:

- transfer of ownership
- permittee name change
- reduction in monitoring frequency
- delete parameters from the table of monitored parameters
- change in sample type or duration
- change in units of measurement
- change in sampling location
- change in requirement for certified operator or in the operator grade level required
- change inspection date or inspection report submittal date
- modify implementation schedule dates with regard to periodic status report submittals

- 3. Annual Operating Fees** will be billed to all persons who hold operating permits. The rate charged depends on the type of permit or discharge.

<b>Permit / Discharge</b>	<b>Operating Fee Effective 7/1/2015</b>
Indirect discharge – for individual permit	\$400.00 plus \$0.035 for each gallon of design capacity above 6,500 gallons per day; maximum \$27,500.00
Indirect discharge and UIC – for approval under general permit	\$220.00
Discharge authorized by UIC permit  (for applications where the discharge meets groundwater enforcement standards at the point of discharge)	\$500.00 plus \$0.02 for each gallon per day over 2,000 gallons per day
Discharge authorized by UIC permit  (for applications where the discharge meets groundwater enforcement standards at the point of compliance)	\$1500.00 plus \$0.02 for each gallon per day over 2,000 gallons per day
