STATE OF VERMONT AGENCY OF NATURAL RESOURCES DEPARTMENT OF ENVIRONMENTAL CONSERVATION

ENVIRONMENTAL PROTECTION RULE, CHAPTER 11 UNDERGROUND INJECTION CONTROL RULE

Injection Well Closure Form for High Risk Activities (§11-907)

(A floor drain which discharges to the subsurface is an injection well)

Contact Allison Lowry with any questions regarding this form by email <u>allison.lowry@vermont.gov</u> or phone 802-522-3008. When submitting this form, be sure that the form is complete and legible. Please mail the form to:

Vermont Underground Injection Control Program
Drinking Water & Groundwater Protection Division
1 National Life Drive, Main 2
Montpelier, VT 05620-3521

GENERAL INFORMATION Please attach additional sheets if needed. 1. Applicant Name: Injection Well Owner/Responsible Person Name: 2. 3. Legal Entity (Business Name): Mailing Address (Applicant): 4. Telephone Number (Applicant): 5. Email Address (Applicant): 6. 7. Facility Address: Describe the facility: Effective 10/29/14, injection wells that receive waste from the location within a facility where the following high-risk activities occur, are prohibited. Floor drain closure notification (this form) is required. Check all that apply. automotive repair petroleum refinery petroleum distribution (fuel pumps, gas autobody shop stations, etc.) automotive dealership specialty repair shop (transmission, petroleum bulk storage muffler repair, etc.) hazardous material storage (excl. auto salvage and/or recycling yard residential or office use) pesticides, herbicides, fungicides (excl. dry cleaning residential or office use) photo finishing mortuaries 9. Total number of floor drains at the facility:___ 10. Please attach a sketch of floor drain location(s) and discharge location. Explain which floor drains were closed and any that remain open. Indicate where the wastewater discharged prior to closure. 11. For example, the wastewaters discharge through three trench floor drains through an oil/water separator, to a 10,000-gallon septic tank, to a leachfield (check all that apply): sand/grit separator cesspool directly into ground septic tank stormwater drain drywell daylights/drainage ditch

Municipal sewer

leachfield

11. (c	ontinued) Description:
violati	Injection wells that are prohibited shall be plugged, abandoned and closed in a manner that assures future iance with the Vermont Groundwater Protection Rule and Strategy (GWPRS) such that activities shall not cause a on of the State of Vermont's Groundwater Enforcement Standards (VGES). be well "closure" method:
	The floor drain was connected to the (Town) municipal sewer service on (date):
	The floor drain was connected to a holding tank on (date): Describe tank (size, construction and location, ex. 1,000-gallon concrete tank 10 feet west of the southwest corner of the garage building):
	See Guidance Recommended Use and Maintenance of Holding Tanks on the State of Vermont UIC Website fo additional information.
J	Plugged with concrete on (date):
13. 	Recommended attachments (not required for compliance) Photographs of floor drains and discharge location (even though the discharge may be below ground) An environmental professional report of the well closure and environmental assessment A letter from the Town indicating that the floor drain has been connected to municipal services (applicable for municipal connection) Holding tank maintenance plan (applicable to holding tanks)
CERTII	FICATION
docun	fy under penalty of law that I have personally examined and am familiar with the information submitted in this nent and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining formation, I believe that the information is true, accurate, and complete. I am aware that there are significant ties for submitting false information, including the possibility of fine and imprisonment.
