

Explanation

Recharge Potential to Surficial Aquifers

- High Recharge Potential: Qal Alluvium
- High Recharge Potential: Qf Artificial Fill
- High Recharge Potential: Qs Swamp/Wetlands
- High Recharge Potential: Qaf Alluvial Fan
- High Recharge Potential: Qft Fluvial Terrace Deposits
- High Recharge Potential: Qdl Delta-Low Stage
- High Recharge Potential: Qdh Delta-High Stage
- High Recharge Potential: Qe Esker
- Moderate Recharge Potential: Qls Lacustrine fs:vfs:silt
- Moderate Recharge Potential: Qt Glacial Till
- Low Recharge Potential: Qlc Lacustrine silt:clay
- Low Recharge Potential: Bedrock Outcrops

Recharge Potential to Surficial Aquifers
