MANAGEMENT OF NON-HAZARDOUS CONTAMINATED SOIL REQUEST FORM

This form is to be used to assist in the compliance with the IRule § 35-803. This form takes the place of the off-site stockpile form and is to be used for the movement, stockpiling, treatment, or disposal of regulated non-hazardous contaminated soils. If the soils generated are already addressed in a Soil Management Plan (SMP), the information contained on this form should be a part of the SMP and this form is not necessary.

Will soils be temporarily stockpiled prior to disposal? Not more than 90 days or between December 1st and April 1st. Yes No; date ranges: _____ to _____.

Quantity of Soils: _____ cubic yards

Soil Contaminants: _____

- Soil is destined for disposal. **If yes, complete signature section**
- Soil is Staying On-Site for Treatment? **If yes, complete checklist, and signature section.**
- Soil is Destined for Off-Site Stockpile, Management and Treatment? **If yes, complete checklist, and signature section.**

Soil Stockpile Siting Criteria Checklist

- There are no potable drinking water supplies within 300-foot radius of the Soil Stockpile. This limit may need to be extended if water supplies are shown to be hydraulically down gradient.
- Soil Stockpile is not within zone one or two of a groundwater source protection area.
- There are no sensitive environments within 100 feet of the treatment location including, but not limited to:
 - waterways (e.g., stream, river, lake, pond, wetland or floodplain zone);
 - State or Federally listed threatened or endangered species or habitat;
 - Class I or II groundwater zone;
 - residence; or
 - property boundary.
- Public access to the soil is prohibited through posting no trespassing or other means approved by Secretary.
- If the owner of the soil stockpiling parcel is different from the soil generator, written approval from the landowner that also grants access to the Secretary, has been obtained before stockpiling begins.
- *The municipality in which the soils will be stockpiled or treated has been notified in writing of the soil stockpiling or treatment location. If applicable, local permits should be obtained. **Attach documents of municipal approval (if applicable), e.g., letter, document, permit, etc.**
- ANR Atlas generated Map including the latitude and longitude of the location in decimal degrees where the soil will be stockpiled. Minimum acceptable accuracy is plus-or-minus 15 feet. **Attach map.**

* This is a requirement for off-site stockpiling of soils.
