### Brownfields Education and Outreach

Please join us for a new outreach effort to foster a collaborative relationship with the environmental community. A handful of Brownfields staff and ACCD partner will present information about Vermont brownfields program, and we will hear about past or ongoing projects in each region. Topics include liability, the site investigation and remediation process, and funding sources. Questions and open discussion are encouraged throughout. This event is beneficial to realtors, lenders, developers, municipal officials, and anyone curious about brownfields. The list of dates, locations and times is provided below. An agenda will be provided separately.
