**PROCEDURE ADDRESSING CLOSURE COST ESTIMATES
FOR SOLID WASTE LANDFILLS**

I. INTRODUCTION

On October 9, 1993, the Federal RCRA Subtitle D regulations (40 CFR Part 258) went into effect. The effective date was delayed until April 9, 1994, for any existing municipal solid waste landfill (MSWLF) unit that disposed of 100 tons or less of waste per day. The ANR Procedure Addressing Closure and Post-Closure Care Requirements at Municipal Solid Waste Landfills, dated January 25, 1995, contained requirements adopted for conformance with the Federal landfill regulations. Several of those requirements have been incorporated into the January 15, 1999, Solid Waste Management Rules, and as of the date of adoption of this Procedure, the January 25, 1995, Procedure Addressing Closure and Post-Closure Care Requirements at Municipal Solid Waste Landfills is no longer applicable.

II. CLOSURE COST ESTIMATE REQUIREMENTS

- A. In addition to the biennial cost revision requirements set forth in SWMR §6-1006, the permittee must annually adjust the closure cost estimate for inflation. The adjustment must be submitted on or before the anniversary of the submission of the last adjustment or closure cost revision.

Effective date

This Procedure is effective upon date of Signature.
