

If you transport solid, hazardous, or residual waste for compensation in a vehicle / trailer on Vermont roads, you are a commercial hauler under Vermont law, which means you will need a state permit.

You Will NEED A VT WASTE TRANSPORTER PERMIT IF:

- You transport regulated quantities of hazardous waste; or
- You transport solid waste includes: liquids, food waste as of July 1, 2020, or residual waste for compensation. A list of the types of waste you can haul is available online.

If you are not sure if you need a permit regarding the type of materials you are hauling, I would advise you to contact us.

The only exemption is if the waste transportation services are incidental to other services offered, and less than 4 cubic yards is transported at any time. Pickup trucks typically hold less than 4 cubic yards.

To comply, immediately register online and submit the applications/forms listed to the right of this brochure for a new permit, which can also be found at the following link:
<https://dec.vermont.gov/haulers>

All permits must be renewed by May 1st each year.

Once you register online it should take just a couple of days to process a permit as long as the following are met:

- ☞ all applications must be complete
- ☞ you must pass all criminal / environmental background information
- ☞ if your business name is listed as a corporation (LLC, Inc., Co., etc.) you must be registered with the Vermont Secretary of State's Corporation Division.
- ☞ If you are hauling from out-of-state you would need to register as a "foreign" corporation at the following link:
<https://www.vtsosonline.com/online>
- ☞ If you are a single-owner (sole-proprietor) you must include your business name as "doing business as" (dba). For example: John Smith dba John's Rubbish Removal.

Keep in mind that "if" you are currently / or are planning to haul in Vermont without a permit, and you are pulled over by an Enforcement Officer, you will be fined.

Review this brochure for other important information and links to applications.
