LIST OF CATHODIC PROTECTION CONTRACTORS

Beginning June 1, 2008, anyone testing a Cathodic Protection System must be NACE, or Steel Tank Institute Certified as a Cathodic Protection Tester or hold an equivalent level of expertise.

This list is provided only as a convenience to tank owners. The State of Vermont does not license or certify Underground Storage Tank (UST) contractors and does not endorse the contractors on this list. This document should not be construed as a list of “approved” contractors. The State of Vermont strongly encourages all tank owners to contact several contractors, and to ask for references. Services provided by contractors may change without the state’s knowledge at any time.
