David K. Mears, Commissioner
Department of Environmental Conservation
State of Vermont
1 National Life Drive, Main 2
Montpelier, VT 05620-3520

Dear Commissioner Mears:

Re: Petition for Amended Lake Use Rule for Lake Iroquois

Enclosed is a copy of a petition for an amended lake use rule for Lake Iroquois. Full sets of all materials submitted in compliance with the Department's requirements have been sent to Matthew Probasco and Leslie Welts, including the signatures, names and addresses of each person signing the petition. I will be acting as the designated representative of the petitioners. My address (including email) and telephone are noted above. Please accept this letter as a certification that the petition has been mailed by me to each of the 22 individuals listed on the attached sheet as persons and organizations having an interest in Lake Iroquois and the public use rules affecting it.

All of the submitted materials are being sent electronically to Matthew Probasco.

Please contact me if there are any questions on the materials submitted or if there is anything further we need to do to make this filing administratively complete.

We look forward to seeing this process through and hope that after all factors have been considered and all public input reviewed, you will see fit to adopt an amended rule for Lake Iroquois that will promote safety, protect water quality and foster appropriate public uses of this valuable resource.

Sincerely,

Daniel R. Sharpe
