

STRATEGIC PLAN

Mission

Why we exist

To efficiently and effectively manage Vermont's surface water resources through a comprehensive, Integrated, and holistic watershed based system.

Vision

Where we want to be

To achieve full support of both healthy ecosystems and public uses in and on all of Vermont's waters.

Goals

How we achieve our vision

To Protect, Maintain, Enhance, and Restore the overall quality of Vermont's surface waters.

Objectives (RBA)

Our Measurement Dashboard

Acres of wetlands restored, number of permits issued, miles of streams assessed, # of priority restoration projects funded, etc...

Strategies (Program Workplans)

How we intend to get there – program by program

Designate Class 1 wetlands, update stormwater standards, enhance Lakewise outreach, etc...

Tactics (Individual Workplans)

What each person needs to do everyday for us to be successful

Monitor, assess, plan, issue permits, conduct inspections, promote practices, fund restoration projects, etc..
