Invest in Clean Water, Invest in our Economy

Meeting the new federal pollution control limits for Lake Champlain, and restoration efforts elsewhere across the State, require **major new investments from a broad spectrum of stakeholders** including municipalities, farmers, businesses and other property owners to control water pollution.

The Vermont Clean Water Fund, established with three years of seed funding (from a surcharge on the Property Transfer Tax), helps stakeholders take action to restore clean water.

Federal, state, local and private dollars support actions to restore clean water. The Clean Water Fund helps the state provide for a greater share in those costs.

Did you know?

Tourism spending in the Champlain Valley totals 2.3 - 2.9 billion annually

Did you know?

Property values in towns along Lake Champlain total nearly 2 billion

Investing in Clean Water Legislative Report Timeline

The Office of the State Treasurer, in consultation with state government agencies, is preparing a legislative report that **recommends revenue sources to provide the Clean Water Fund with adequate and sustainable funding. We need your input on this report.**

THE ECONOMIC IMPACT OF CLEAN WATER

Water quality in Lake Champlain is a key economic driver, supporting tourism, property values and employment. A decrease in lake water quality could result in long-lasting negative impacts to the regional economy.

2015 Act 64, Sec. 40. STATE TREASURER REPORT ON LONG-TERM FINANCING OF STATEWIDE WATER QUALITY IMPROVEMENT

On or before January 15, 2017, the State Treasurer, after consultation with the Secretary of Administration, the Commissioner of Environmental Conservation, and the Commissioner of Taxes, shall submit to the Senate and House Committees on Appropriations, the House Committee on Fish, Wildlife and Water Resources, the Senate Committee on Natural Resources and Energy, the House Committee on Agriculture and Forest Products, the Senate Committee on Agriculture, the House Committee on Ways and Means, and the Senate Committee on Finance a recommendation for financing water quality improvement programs in the State. The recommendation shall include:

(1) Proposed revenue sources for water quality improvement programs that will replace the Property Transfer Tax surcharge established under 32 V.S.A. § 9602a. The proposed revenue sources shall be designed to assess fees, taxes, or other revenue sources from a property, parcel use, parcel, type, or an activity in proportion to the negative impacts of property, parcel use, parcel type, or activity on the water quality in the State.

(2) A recommendation for rewarding or incentivizing best management practices for a property or activity that is subject to the proposed fee, tax, or revenue source.

(3) An estimate of the amount of revenue to be generated from each proposed revenue source.

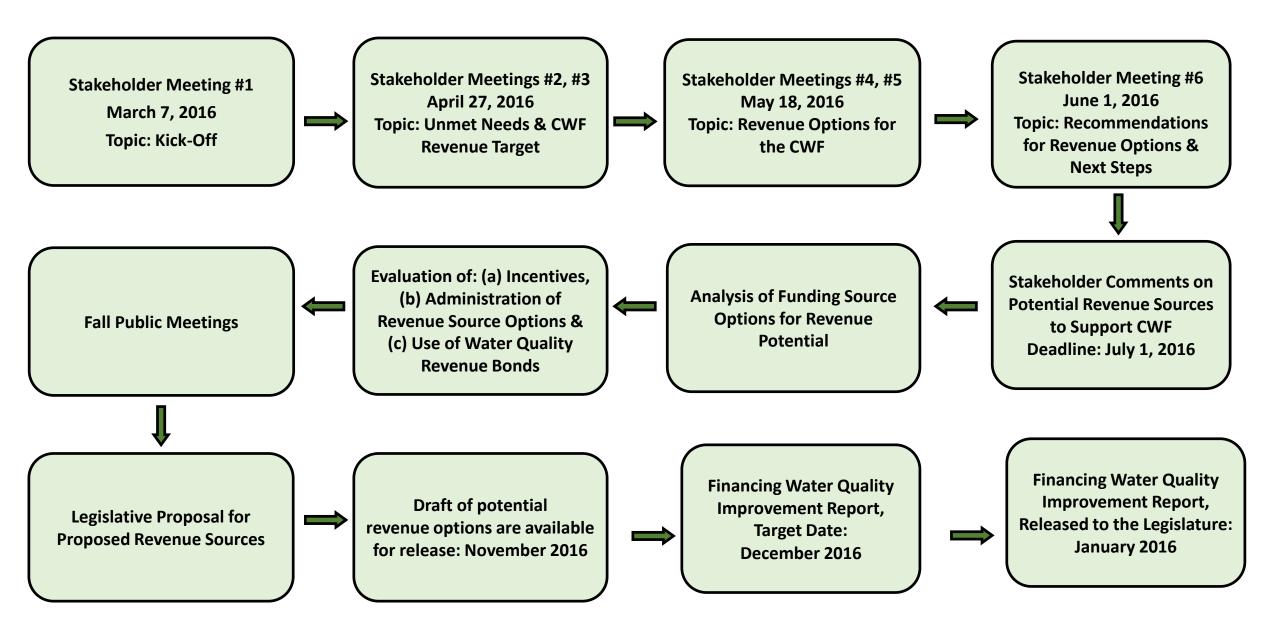

(4) A summary of how assessment of the proposed revenue source will be administered, collected, and enforced.

(5) A recommendation of whether the State should bond for the purposes of financing water quality improvement programs, including whether a proposed revenue source would be sufficient for issuance of water quality revenue bonds.

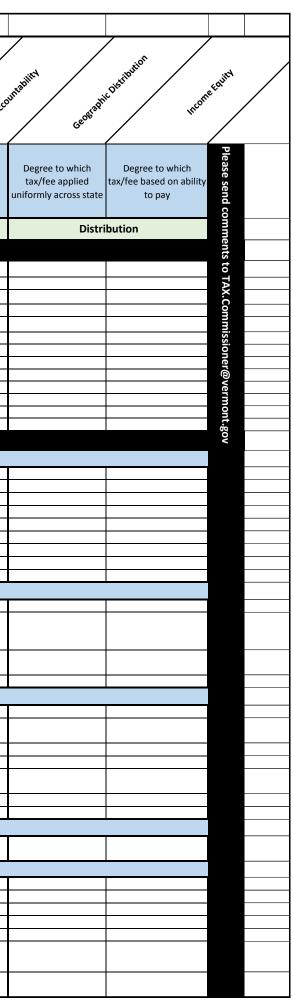

(6) A legislative proposal to implement each of the revenue sources proposed under this section.

DRAFT Process for Developing Legislative Report

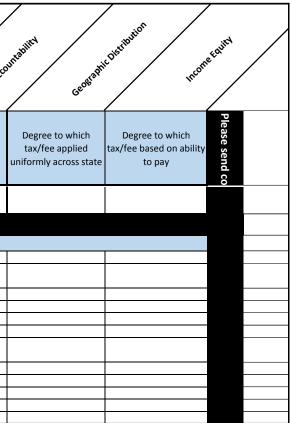

Financing Clean Water Improvement Using the State Clean Water Fund (CWF)

CLEAN WATER FUND REVENUE CRITERIA EXERCISE

<u>Clean Water Long-Term Financing Report Purpose</u>: The Vermont Clean Water Act (Act 64) "requires the State Treasurer to recommend a long-term revenue source to fund water quality improvements."

<u>Action:</u> The State plans to use the below criteria to evaluate revenue sources for water quality improvements. Stakeholders have an opportunity to rank the criteria in the table below by allocating no more than 100 total points to the line items you value most. Please send your rankings to <u>tax.comssioner@vermont.gov</u> by July 1, 2016.

Criteria	Explanation	Degree of Assessment	Points
Revenue	The revenue source's potential to support the Clean	Revenue Amount	
Potential	Water Fund or debt service on a bond for clean water improvements.		
Predictability	Revenues are relatively constant over time and not	a) Stable & predictable,	
·	subject to unpredictable fluctuations	b) Unstable & unpredictable	
Sufficiency	The revenue source provides the dollars necessary to	a) Supports spending	
·	finance the desired rate of spending.	with/without other sources,	
		(b) Insufficient to support	
		spending	
Economic	The entities that a revenue source targets, the	a) Who does the source target?	
Impact	potential economic consequences of that revenue	b) What are the potential	
	source, and a revenue source's leverage on outside	consequences?	
	dollars such as federal match.	c) Attracts or inhibits outside	
		dollars?	
Nexus to	The degree to which the tax or fee bears a	a) Direct relationship to water	
Water Quality	relationship to water quality	quality,	
		b) Indirect relationship,	
		c) No relationship	
Promotes	The degree to which a tax or fee encourages	a) Encourages positive behavior,	
Mitigation	individuals and businesses to perform on-site	b) Does not encourage positive	
	mitigation to improve water quality	behavior	
Administration	The degree to which revenues can be collected	a) Simple or pre-existing	
& Compliance	effectively, the provision can be enforced, and payers	structure,	
	can easily comply.	b) Complex or new structure	
Accountability	The degree to which the amount of the tax or fee is	a) Transparent to payer	
	explicit and known to those who pay.	b) Semi-transparent to payer	
		c) Not transparent to payer	
Geographic	The degree to which the tax or fee applies uniformly	a) Source is applied across state	
Distribution	across the entire state.	b) Source is applied to particular	
		geographic regions	
Income Equity	The degree to which the tax or fee is based on ability	a) Source is based on a	
	to pay	progressive income/wealth	
		structure	
		b) Source is not based on	
		income/wealth	
Other Criteria	Please provide suggestions if desired.
