

# VT Watercraft Inspection Survey123 Data Dashboard

## Guide for Vermont Public Access Greeter Programs

### VT Watercraft Inspection Survey123 123 Data Dashboard - Why is it helpful?

- VTDEC, Coordinators, and Greeters (We) are able to review a single database of number of boaters greeted, types of watercraft, and number of watercraft that were inspected and decontaminated. It also shows species that were encountered by Greeters who submitted photographs to the Dashboard throughout the season.
- We can generate maps to track aquatic invasive species (AIS) movement and target monitoring efforts to reduce the spread of invasive species.
- We can gather information on how familiar boater's are with AIS, and how future education and outreach can be most effective by targeting locations.
- We can verify the data Greeters upload to Survey123 and confirm suspicious species found during inspections quickly.

## Navigating within the Greeter Survey123 Dashboard:

Step 5: In the top right corner of each panel hover over the panel to reveal the maximize button in the top right corner.

Click the  button to get a larger view of each section of the dashboard.

**Watercraft Inspection Survey**  
Use filters to the right to change or reset the dashboard

**Inspection Station**  
Dunmore, Echo 2

**Select a date**  
All dates

**Greeted**  
4,700

**Inspected**  
3,634

**Decontaminated**  
12

**Aquatic Invasive Emergency List**  
This list contains inspection results for aquatic invasives the program needs to know about immediately.

Dunmore; 7/22/2021, 10:48 AM  
Results: Dreissena polymorpha  
Last waterbody: Champlain

**Watercraft Type**

Watercraft Type	Count
Outboard Motorboat	~2500
Inboard Motorboat	~500
Jet Ski	~200
Other	~100
Pontoon	~50

**Purpose of the Trip**

Purpose	Percentage
Other Recreation	69.1%
Fishing	30.6%
Commercial	0.2%
Governmental	0.2%

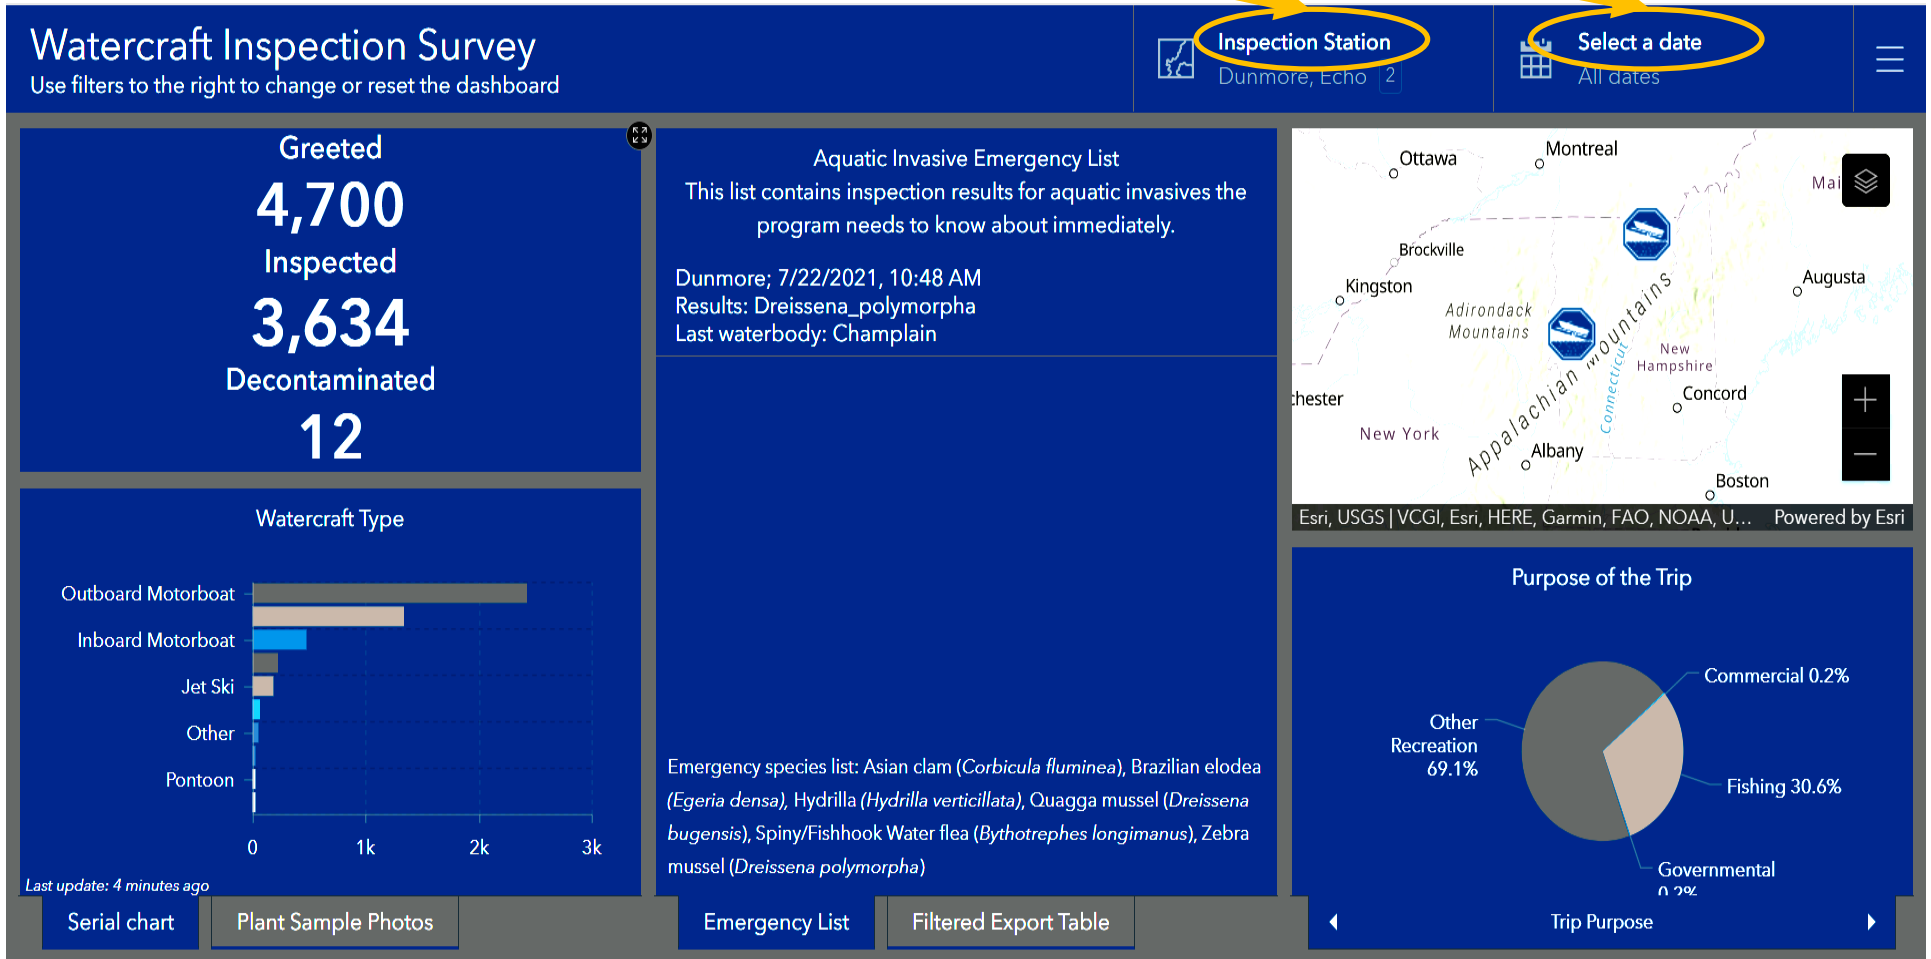

**Emergency species list:** Asian clam (*Corbicula fluminea*), Brazilian elodea (*Egeria densa*), Hydrilla (*Hydrilla verticillata*), Quagga mussel (*Dreissena bugensis*), Spiny/Fishhook Water flea (*Bythotrephes longimanus*), Zebra mussel (*Dreissena polymorpha*)

## Navigating within the Greeter Survey123 Dashboard:

Step 6: **Filter Survey 123 Data** by “**Inspection Station**” or “**Date**” with the dropdown menu on the top right of the dashboard to chose from the lists.

## Greeter Survey 123 Dashboard User Guide

### Navigating within the Greeter Survey123 Dashboard:

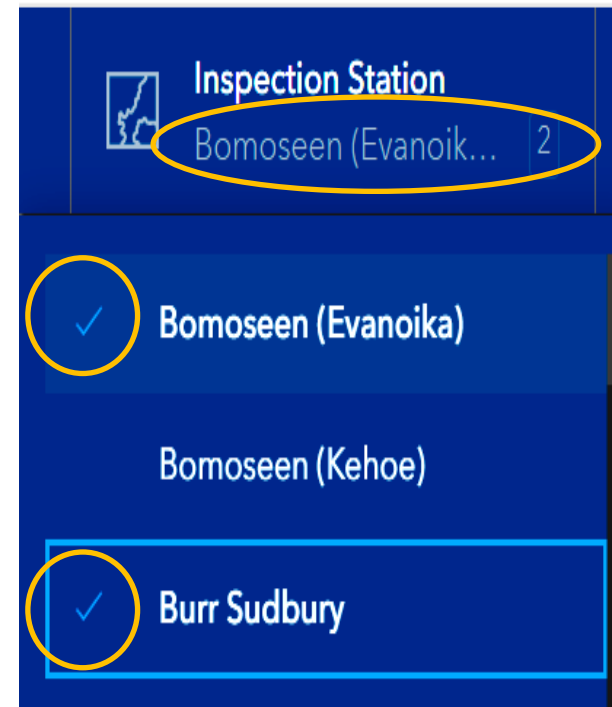

Step 6: To **filter by “Inspection Station”** select one or multiple waterbodies you wish to view. A blue checkmark will appear next to their name and the names and number of waterbodies selected will appear under the **“Inspection Station”** box.

The name of the town the waterbody is located in is in parentheses (e.g. **“Bomoseen (Evanoika)”** is referring to the area Lake Bomoseen located in the town of Evanoika).

Click on the waterbody name again to unselect it and the blue checkmark will go away, and the data on the dashboard will reset.

**OR** hit the **“Reset”** button at the bottom of the dropdown to unselect all water bodies and reset the dashboard.

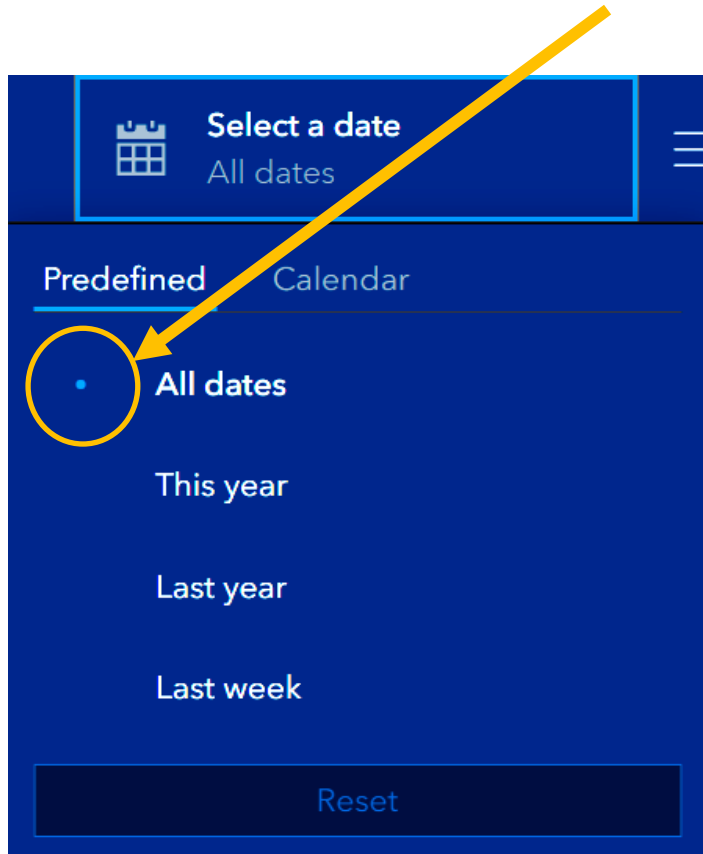

The data in all the other panels will change to reflect the **“Inspection Station”** and **“Date”** filters.

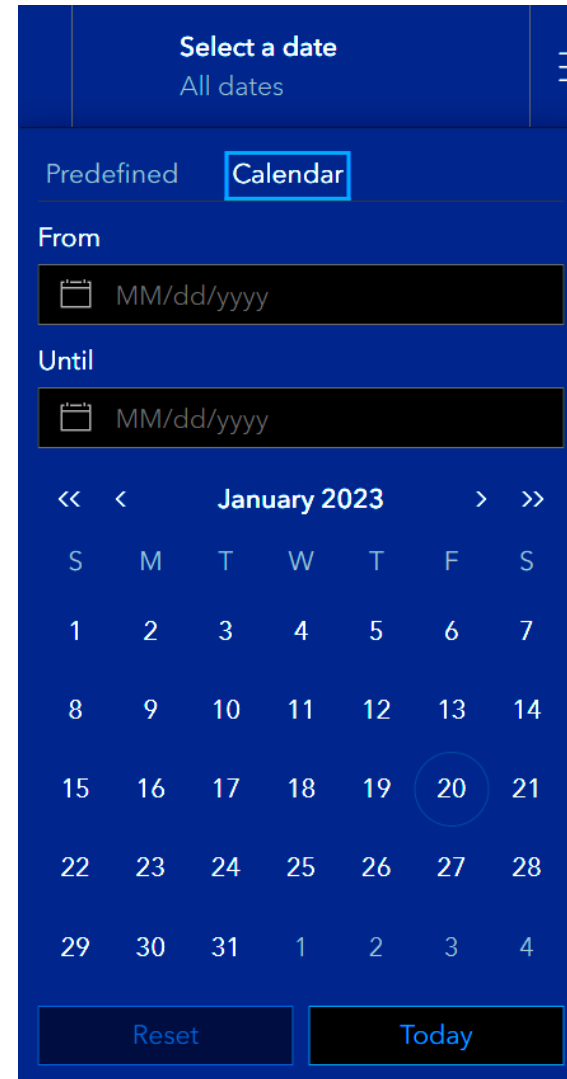

## Greeter Survey 123 Dashboard User Guide

Step 6: **To filter by date**, select a “**Predefined**” timeframe or a specific “**Calendar**” date.

When you select a Predefined date a blue dot will appear in front of your selection.

Hit the “**Reset**” button to reset the dashboard.

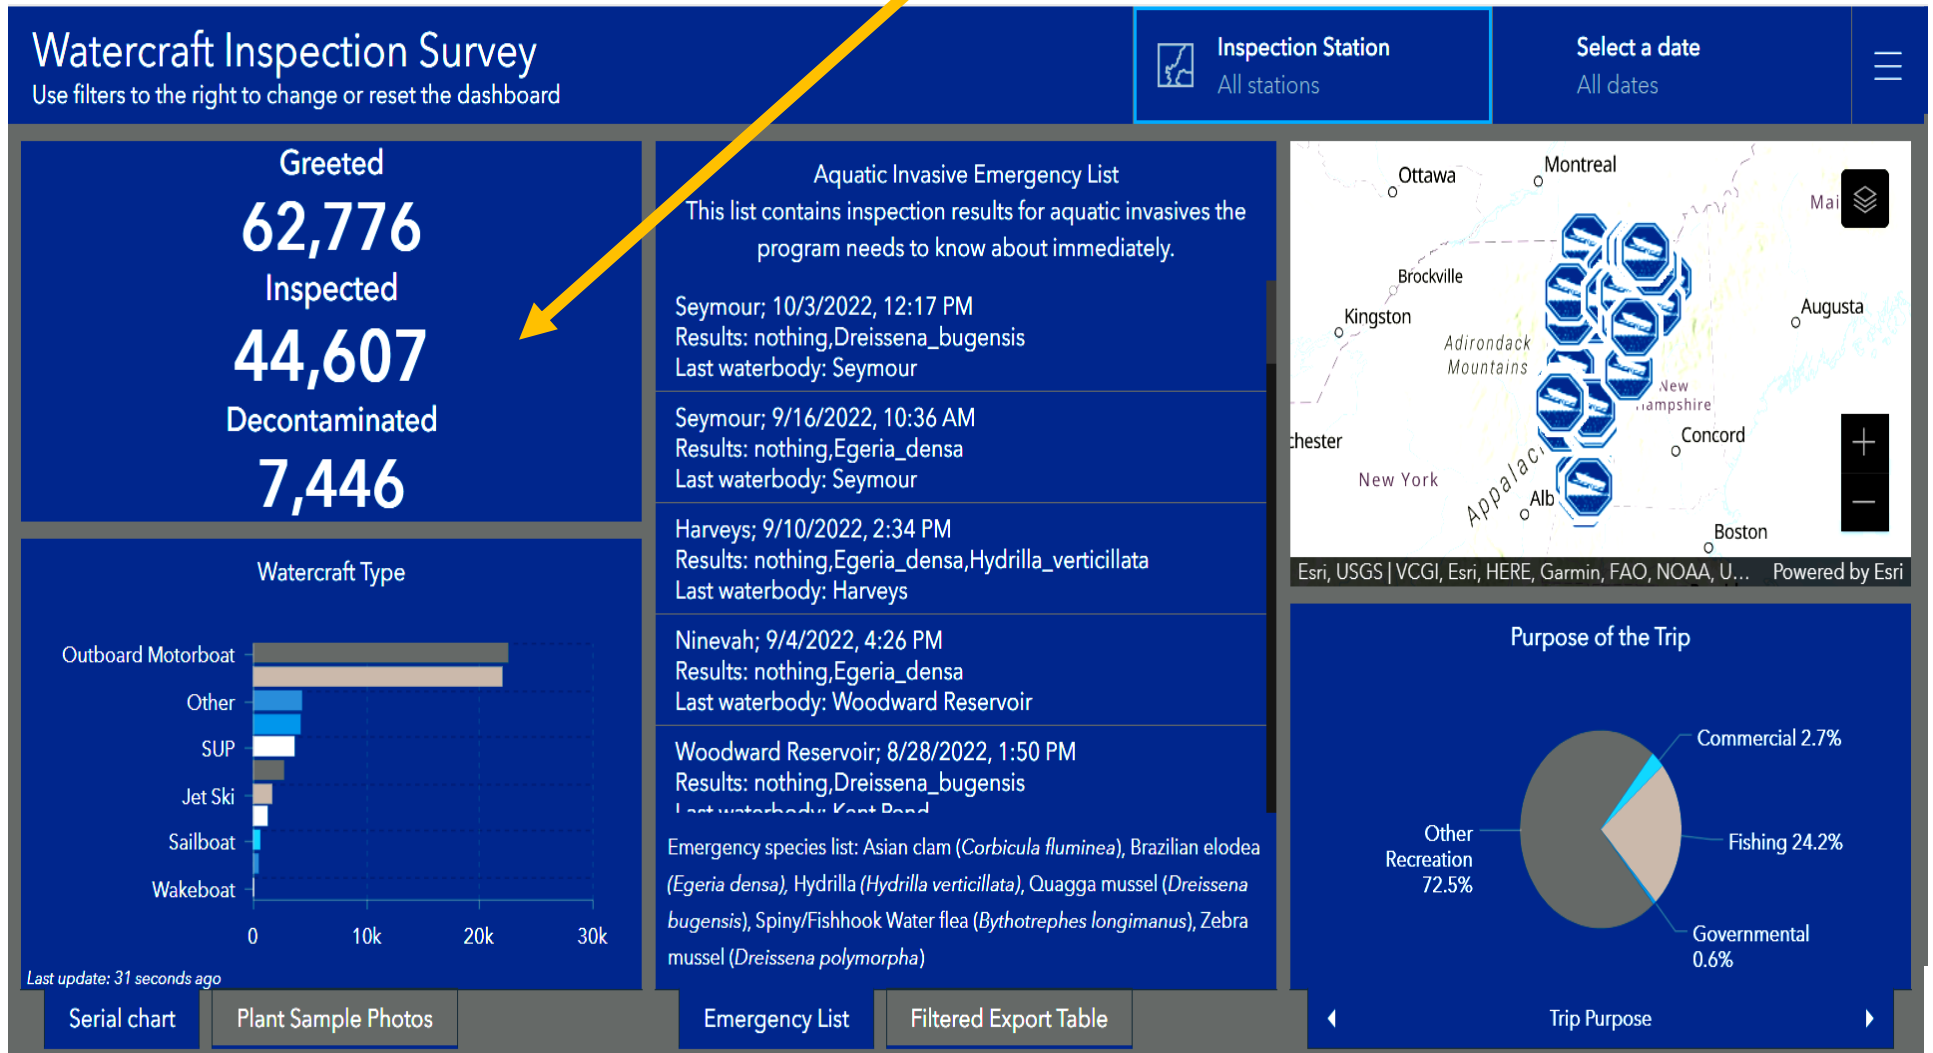

You can see data for your current date by hitting the “**Today**” button in the “**Calendar**” tab.

# Greeter Survey 123 Dashboard User Guide

Understanding the Greeter Survey123 Dashboard information from left to right panels:

Step 7: The top left panel of the Dashboard gives information on the number of boats “Greeted, Inspected, and Decontaminated.”

# Greeter Survey 123 Dashboard User Guide

Step 7: For example, selecting **Inspection Station** “Bomoseen (Evanoika)” and “Last Year” under **Select a Date**, changes the number of **Greeter, Inspected, and Decontaminated** watercraft to reflect the number of watercraft **Greeted, Inspected, and Decontaminated in Lake Bomoseen (Evanoika) over the past year**, rather than the default of all the surveyed Vermont waterbodies over all years

The dashboard is titled "Watercraft Inspection Survey" and includes a subtitle "Use filters to the right to change or reset the dashboard".

**Filters:**

- Inspection Station:** Bomoseen (Evanoika)
- Select a date:** Last year

**Statistics:**

- Greeted: 411
- Inspected: 379
- Decontaminated: 100

**Watercraft Type (Horizontal Bar Chart):**

Watercraft Type	Count
Outboard Motorboat	230
Jet Ski	70
Pontoon	30
Sailboat	10
Wakeboat	5

**Aquatic Invasive Emergency List:** This list contains inspection results for aquatic invasives the program needs to know about immediately. No data is currently displayed.

**Emergency species list:** Asian clam (*Corbicula fluminea*), Brazilian elodea (*Egeria densa*), Hydrilla (*Hydrilla verticillata*), Quagga mussel (*Dreissena bugensis*), Spiny/Fishhook Water flea (*Bythotrephes longimanus*), Zebra mussel (*Dreissena polymorpha*)

**Map:** A map of Vermont and surrounding regions (New York, New Hampshire, Massachusetts, Connecticut) showing the location of Bomoseen Lake. Major cities like Ottawa, Montreal, Brockville, Kingston, Albany, Concord, Boston, and Augusta are marked.

**Purpose of the Trip (Pie Chart):**

Purpose of the Trip	Percentage
Other Recreation	56.2%
Fishing	43.8%

**Navigation and Footer:**

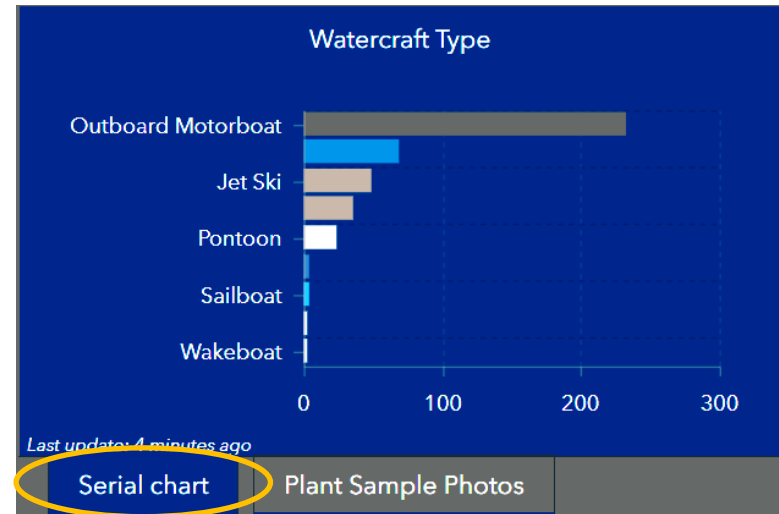

- Serial chart
- Plant Sample Photos
- Emergency List
- Filtered Export Table
- Trip Purpose

# Greeter Survey 123 Dashboard User Guide

Step 8: The bottom left panel has two tabs of information:

The “**Serial Chart**” tab gives statistics on the types of watercrafts that have been greeted.

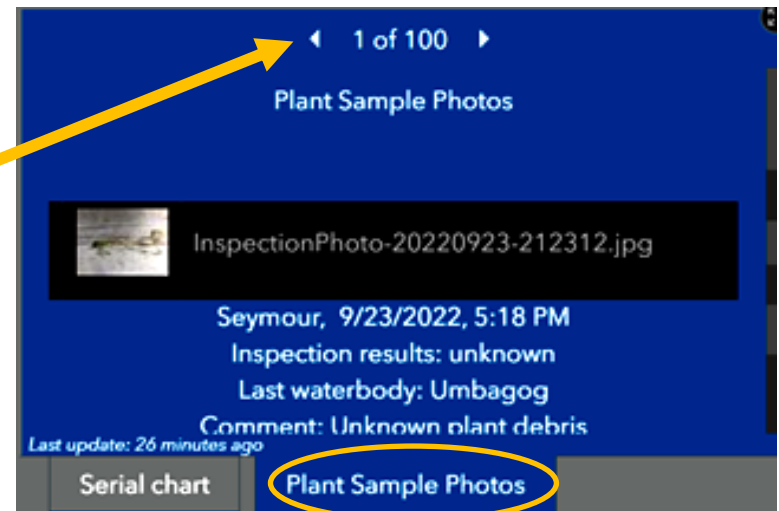

The “**Plant Sample Photos**” tab shows pictures unidentified species logged by Greeters into Survey123 for the DEC AIS team to verify.

**Toggle** through the samples using the left and righthand arrows at the top of the panel.

**\*Refer to [insert link] to submit a photo to the Dashboard\***

Both tabs can be filtered by “**Inspection Station**” and “**Date.**”

# Greeter Survey 123 Dashboard User Guide

Step 9: The middle panel under the “Emergency List” tab gives information about any emergency AIS that have been found in Vermont.

It can be filtered by “Inspection Station” and “Date.”

Step 11: The bottom right panel gives answers from boaters to questions posed by Greeters.

It can be filtered by “**Inspection Station**” and “**Date.**”

**Toggle** through the 3 different charts of information with the arrows on the bottom left and righthand corners of the panel.

# Greeter Survey 123 Dashboard User Guide

To get Survey123 data:

Step 12: To get data you must pick “Inspection Station” and “Date” parameters.

Click on the “Filtered Export Table” tab in the center panel of the dashboard at the bottom of the page to get data from your chosen station and time frame.

Step 13: To download the data click on the download button in the bottom left corner of the Filtered Export Table panel and an Excel sheet will show up in your downloads on your computer.

Filter records by station and date
