Milfoil is thick around dock & swimming area. It starts about 15ft from shore & extends out. - We would like to put 4 blankets (10x40) to **10'x50'** allow boat access to dock & help keep propeller from being clogged (also not cut up weeds creating more seedlings). We would also like a clear area for swimming.

"Starting "15ft" from shoreline & extending out another 75 ft, 90% of our waterfront has Milfoil"
"Per the instructions from manufacturer, every 10 ft of the blanket has a metal rebar that weights it down"
