

Robert Arnold Award

Is offered by the Vermont Agency of Natural Resources' Lakes and Ponds Program to recognize individuals who exhibit devotion in the care and stewardship of their favorite Vermont lake on many facets of lake management and protection.

This lake protection award was initiated in 1998 in memory of Robert Arnold of Seymour Lake, Morgan, Vermont in recognition and appreciation of his many years of volunteer service to Seymour Lake as a Vermont Lay Monitor. His love and dedication to Seymour Lake serve as an inspiration to all who knew him.

All Robert Arnold Award recipients are recognized and thanked for their all-around devotion to the health and protection of Vermont Lakes.
