Shoreland BMPs • Native Plants • Permitting • Green Infrastructure • Bio-Engineering • Contractor Materials & Suppliers • Road Maintenance

INSTRUCTORS

Contractors • Private Suppliers • Designers • Permit Specialists • Lake Watershed Scientists

[DEC.VERMONT.GOV/WATERSHED/LAKES-PONDS](https://dec.vermont.gov/watershed/lakes-ponds)

LANDSCAPERS CONTRACTORS SITE WORKERS

WHY

Vermont has over 1400 miles of lakeshores with some of the greatest residential density and development pressure in the state. This voluntary certification course teaches landscaping techniques that control stormwater runoff and conserve wildlife habitat, which are essential shoreland development practices for protecting Vermont lakes.

CERTIFIED PARTICIPANTS

Will be listed on the Agency of Natural Resources web site; given priority for certain ANR grant funded shoreland projects; and awarded professional development credits, including four non-soil credits for Licensed Designers.

COSTS

Free in 2022! (The \$20 charge for this course has been waived for this year's virtual training.)
