

Bioengineering Training Day

Encapsulated Soil Lifts

Black Pond Road, Hubbardton

Wednesday, September 11

9:00am-12:00pm

Join the Town of Hubbardton Road Crew, Agency of Natural Resources specialists, and the Northwoods Stewardship Crew to install 300 feet of Encapsulated Soil Lifts to stabilize the shore between Black Pond Road and Black Pond.

This project is funded through VTRANS Better Roads Program and contractors, environmental engineers, designers and consultants are invited to participate in this field training opportunity. Although the work will continue for a week to complete, Wednesday, September 11th is the hands-on training day and chance to learn from local experts in bioengineering. Come join us or stop by if you can.
