Footnotes:

<sup>2</sup> Despite having less than 30 contiguous acres outside the shoreline safety zone, the Water Resources Board, in its 1995 Rules, determined that high speed boating is a normal use on this waterbody. *See*, No. UPW 95-00 (Appendix A), January 1, 1995.

<sup>7</sup> While UPW Rule 3.4 would allow the use of this waterbody by aircraft, the Water Resources Board, in its 1995 Rules, specifically prohibited aircraft use of this waterbody. *See*, No. UPW 95-00 (Appendix A), January 1, 1995.
