

Notice of Application of Wetland Individual Permit: 2012-131
1/12/2016

A request for An Wetland Individual Permit, required pursuant to the provisions of Section 9 of the Vermont Wetland Rules has been received from the Wilmington Water District.

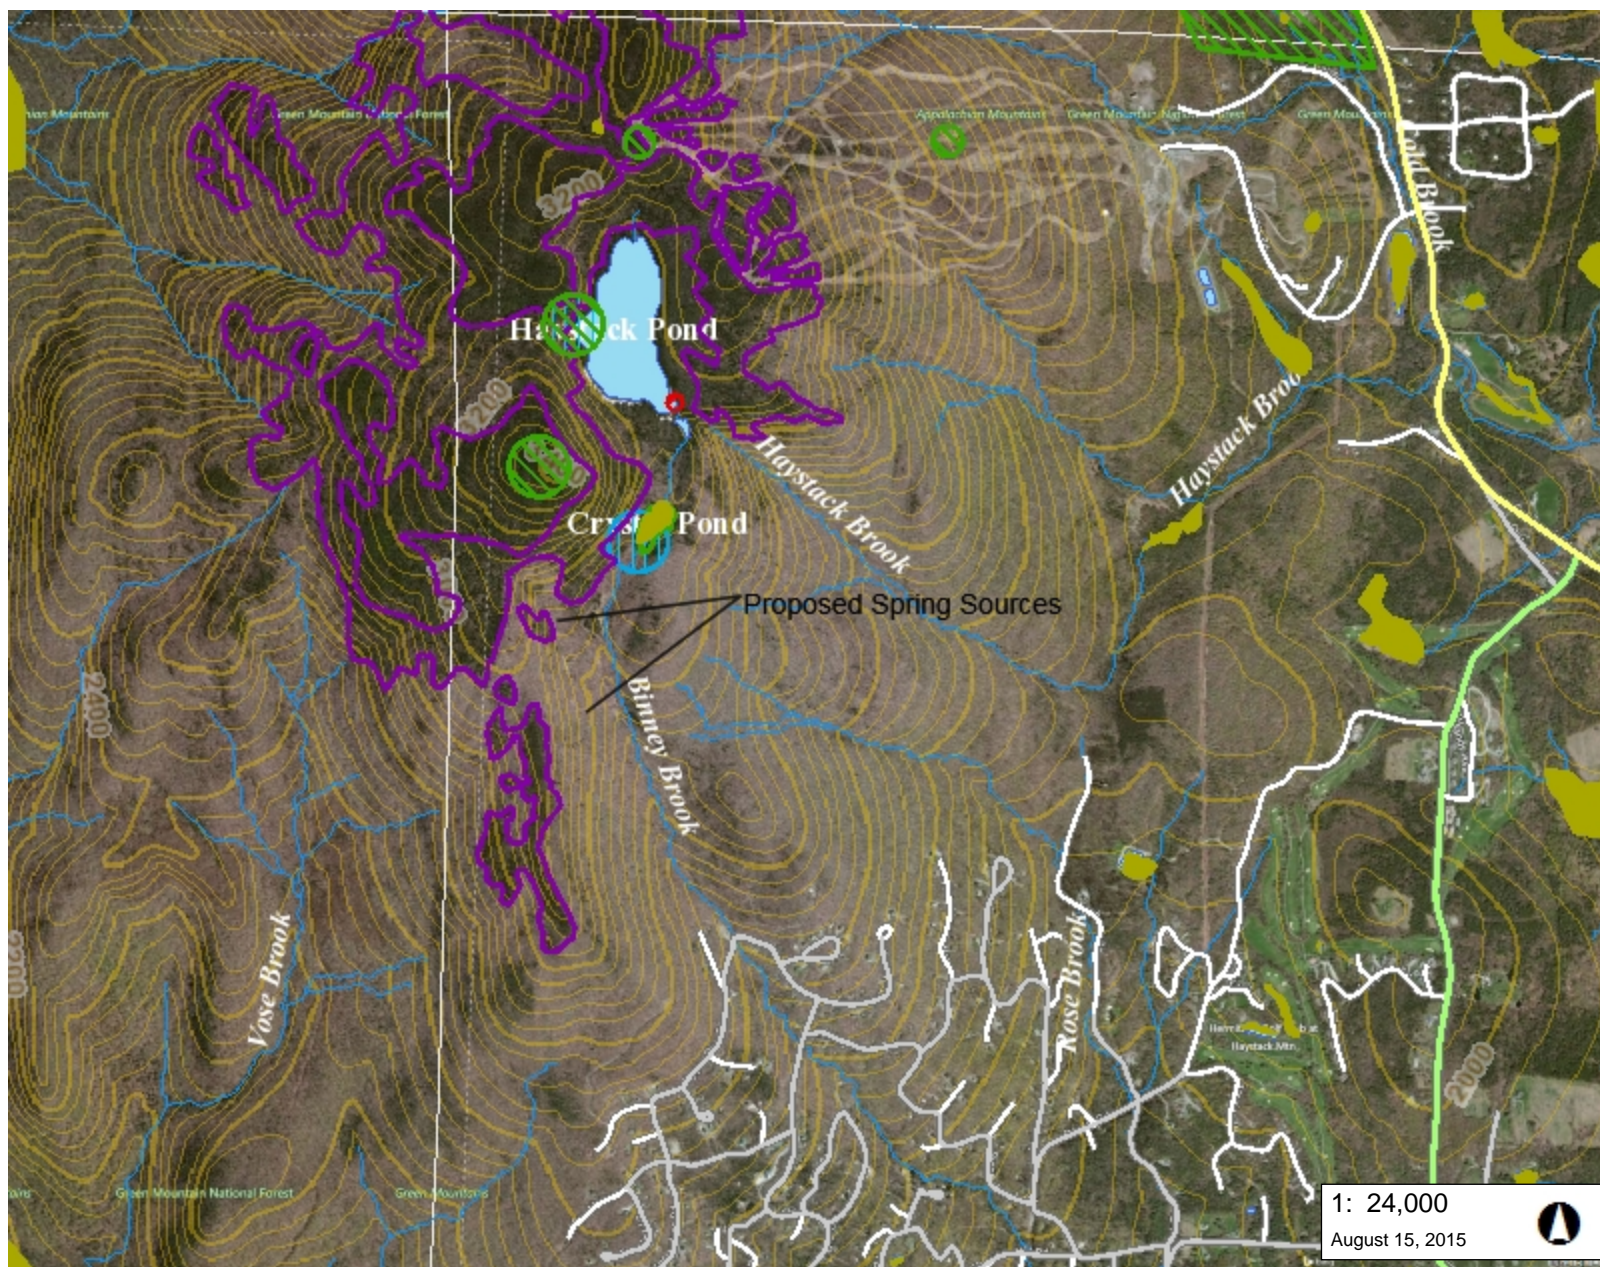

The Wilmington Water District is requesting approval for construction of additional spring sources near current sources to reduce use of springs under the influence of surface water located near existing Wilmington Water District spring sources 7,9,11, and 12 on Haystack Mountain, Hill Rd., and Upper Dam Road to Access Rd., in Wilmington, VT. The proposed project will impact 7,886 square feet of Class II wetland and 5,335 square feet of Class II wetland buffer zone. This wetland has been designated as a significant (Class II) wetland under the Vermont Wetland Rules.

Copies of the application are available for review at the Vermont Wetlands Office in Montpelier, the Town Clerk's Office in Wilmington, the Regional Planning Commission office in Wilmington, and the Agency of Natural Resources website: <http://www.watershedmanagement.vt.gov/cfm/notices/info.cfm?id=9696>
Individual Wetland Permits may only be approved if the Agency is satisfied that the applicant has demonstrated that the proposed use complies with the Vermont Wetland Rules and the proposed use will not have an undue adverse impact on the functions and values of any significant wetlands or their adjacent buffer zones. In making the determination that the applicant has met this burden, the Agency will evaluate the potential effects of the proposed use on the basis of (1) the use's direct and immediate effects on the wetland; and (2) the use's cumulative or on-going effects on the wetland.

Any person may file comments in writing by referencing Project 2012-131 through 1/26/2016 and sending them to:
