

**Notice of Application of Wetland Individual Permit: 2014-058
1/29/2016**

A request for An Wetland Individual Permit, required pursuant to the provisions of Section 9 of the Vermont Wetland Rules has been received from the Vermont Agency of Transportation (VTrans).

VTrans is requesting approval for an amendment for increase in impacts for the installation of a new culvert using jacking techniques, grouting of 60' of existing damaged culvert, installation of headwalls and wingwalls, and placing of stone fill located at immediately adjacent to the VT Railway line in the town of Ferrisburgh, south of Monkton Road and west of South Middlebrook Road, in Ferrisburgh, VT. The proposed project will impact 684 square feet of Class II wetland and 3,517 square feet of Class II wetland buffer zone. This wetland has been designated as a significant (Class II) wetland under the Vermont Wetland Rules.

Copies of the application are available for review at the Vermont Wetlands Office in Montpelier, the Town Clerk's Office in Ferrisburgh, the Regional Planning Commission office in Middlebury, and the Agency of Natural Resources website: <http://www.watershedmanagement.vt.gov/cfm/notices/info.cfm?id=9713>
Individual Wetland Permits may only be approved if the Agency is satisfied that the applicant has demonstrated that the proposed use complies with the Vermont Wetland Rules and the proposed use will not have an undue adverse impact on the functions and values of any significant wetlands or their adjacent buffer zones. In making the determination that the applicant has met this burden, the Agency will evaluate the potential effects of the proposed use on the basis of (1) the use's direct and immediate effects on the wetland; and (2) the use's cumulative or on-going effects on the wetland.

Any person may file comments in writing by referencing Project 2014-058 through 2/12/2016 and sending them to:
