

A possible public statement to post on Front Porch Forum and your Town website:

Public Notice:

Permits are needed for Repairs and Improvements After Flooding

Please contact the [Town Zoning Administrator](#) for more information

Temporary emergency repairs and clean up do not require a permit.

Anything permanent needs to meet standards to avoid future flood damage.

Help for homeowners and businesses can be found at:

www.floodready.vt.gov/help-after-flooding

After the flooding we can expect a FEMA Community Assistance Visit.

The Town wants to keep flood insurance as available as possible.

Note

The header is simplified for distribution.

Permits are only needed for repairs/improvements within the Special Flood Hazard Area or as the Town otherwise requires.
