# AUTHORIZATION TO CONDUCT NEXT FLOOD MEASURES

Pursuant to Section F of the Vermont Stream Alteration General Permit

## A. Permitted Project Information:

Project Number: NFM-06-19-2016

**Applicant Name**: Ed Guilfoy **Phone**: (802) 434-3332

Mailing Address: 344 Moody Rd., Huntington, VT 05462 Email: Eric.Krull@cesuvt.org (neighbor)

Project Location: Main Road, Huntington (44.2565, -72.9618)

#### **B. Findings:**

The Secretary of the Vermont Agency of Natural Resources (VT ANR) has determined that:

- 1. This project authorizes removal approximately 600 yd<sup>3</sup> of accumulated sediment, from above the water level of the Huntington river to restore channel conveyance and reduce flooding of adjacent improved properties.
- 2. The proposed activity is eligible for coverage under the VT ANR Stream Alteration General Permit.
- 3. The proposed activity will meet the terms and conditions of the General Permit provided:

#### **C. Standard Conditions:**

- 1. The project is proportional to the threat and conditioned to cease when the threat to life or to improved property has ended.
- 2. The project will not result in a threat to life, public health or safety.
- 3. The project will meet the standards detailed in subsection E.2.1 and E.2.2 of the General Permit.
- 4. The project will meet Stream Alteration Standards to the greatest extent possible.
- 5. A pre-construction meeting is held between the contractor, owner/applicant, and the ANR River Management Engineer.
- 6. The River Management Engineer is notified by phone or email when construction begins and when the project is complete. Contact information is provided on the bottom of this authorization.
- 7. All material greater than 2 feet in diameter shall be retained and left within the limits of the channel.
- 8. All material excavated from the channel shall be transported to an upland location.
- 9. A final construction inspection is required prior to demobilization of the contractor.

If there are any changes in the project plan or deviation in construction from the plan, the Permittee must notify the River Management Engineer immediately.

If the project is constructed as you have described, as shown on the above referenced approved plans and according to the above conditions, there is no reason to expect any violation of Vermont Water Quality Standards.

#### **D. Authorization:**

Signed this  $20^{\text{th}}$  day of September, 2016

Alyssa B Schuren, Commissioner

Department of Environmental Conservation

by:

Jaron Borg, River Management Engineer
