* Administrative Processing Fee	*	Administrative	Permit	\$240*	\$240*	\$240*
Multi Sector General Permit for Stormwater Discharges Associated with Industrial Activity	MSGP 9003	Application Review	Permit	\$440	\$440	\$440
		Annual Operating	Permit	\$160	\$160	\$160
Transportation Separate Storm Sewer System General Permit	TS4 9007	Application Review	Permit	\$1,200	\$1,200	N/A
		Annual Operating	Permit	\$90,000	\$90,000	N/A
Municipal Separate Storm Sewer System General Permit	MS4 9014	Application Review	Permit	\$2,400	\$2,400	\$2,400
		Annual Operating	Acre	\$10	\$10	N/A
State Operational General Permit	GP 9010/9015 GP 9050	Application Review	Acre	\$1,400	\$860	\$1,400/\$440
		Annual Operating	Acre	\$310	\$160	\$310/\$160
Individual Stormwater Permit, Operational/Post-Construction	INDS	Application Review	Acre	\$1,400	\$860	\$1,400/\$440
		Annual Operating	Acre	\$310	\$160	\$310/\$160
Construction General Permit: Low Risk	CGP 9020	Application Review	Permit ≤ 5 acres	\$100	\$100	\$100
			Permit > 5 acres	\$220	\$220	\$220
Construction General Permit: Moderate Risk	CGP 9020	Application Review	Permit ≤ 5 acres	\$480	\$480	\$480
			Permit > 5 acres	\$640	\$640	\$640
Individual Construction Permit: Projects that do not qualify as a Low Risk or Moderate Risk Site under GP 3-9020	INDC	Application Review	Permit ≤ 10 acres	\$1,200	\$1,200	\$1,200
			Permit > 10 acres	\$1,800	\$1,800	\$1,800
Residual Designation Authority, General Permit: Discharges to Bartlett, Centennial Englesby, Morehouse, and Potash Brook Watersheds	RDA 9030	Application Review	Acre	\$1,700	\$860	\$1,700/\$280
		Annual Operating	Acre	\$310	\$160	\$310/\$160
Municipal Roads General Permit	MRGP 9040	Application Review	Permit	\$400	\$400	N/A
		Annual Operating	Tier 1 Permits	\$1,800	\$1,800	N/A
			Tier 2 Permits	\$1,350	\$1,350	N/A
			Tier 3 Permits	\$500	\$500	N/A

*Applicable to all applications, except for Construction General Permits (CGP) and applications under the Municipal Separate Storm Sewer System (MS4) General Permit

[**Tiered MRGP Annual Operating fee](#)

Refund Policy for administrative processing fees and application review fees.

- If an application is modified, withdrawn or denied after technical review has commenced; all fees are retained.
- If an application is withdrawn prior to administrative review; all fees will be refunded.
- If an application is withdrawn after administrative review but prior to commencement of technical review, deemed administratively incomplete and returned to applicant, or determined that a permit is not required; administrative fees are retained, and permit application review fees will be refunded.

Investing in Clean Water

Stormwater systems not only play an important role in reducing and eliminating runoff into neighboring streams, rivers, and lakes, these systems also protect larger bodies of water like Lake Champlain, the Connecticut River, and Lake Memphremagog.

While it's hard to imagine your stormwater system has such a far-flung impact, it does!

Your Stormwater Permit Supports Clean Water Work in 4 Ways:

Preventing stormwater runoff pollution from entering Vermont's waters

4,000+ projects in Vermont are covered by a stormwater permit. These permits significantly reduce water pollution.

Developing new regulatory programs to restore water health

Permitting program staff work with individuals to design paved surfaces like roads and parking lots in ways that protect stream and lake health.

Helping municipalities understand and apply best management practices

The Municipal Roads General Permit has practices to reduce water pollution and make town roads more resilient to floods.

Supporting landowners, businesses, municipalities, and consultants

Vermonters receive technical assistance in understanding Stormwater Program requirements.

Thanks for investing in Vermont's water!

Your fees directly fund Department of Environmental Conservation programs that reduce runoff by protecting and restoring Vermont's rivers, streams, lakes and ponds.
