**NOTICE OF PUBLIC MEETING**

The Agency of Natural Resources (ANR) hereby provides public notice of National Pollutant Discharge Elimination System (NPDES) draft 2025 Construction General Permit for Stormwater Runoff from Construction Sites (CGP), CGP 3-9020. The draft 2025 CGP authorizes discharges of stormwater runoff from construction activities involving one (1) or more acres of earth disturbance, including construction activities when the disturbance is less than one acre, but is part of a larger “common plan of development”, if the common plan will ultimately result in the disturbance of one or more acres.

Written public comments on the proposed permit will begin on May 9, 2025. All comments must be received on or before the close of the business day (4:30 pm) on June 17, 2025. Written comments on the draft CGP shall be submitted via the Environmental Notice Bulletin, (ENB) [enb.vermont.gov/default](https://enb.vermont.gov/default).

A public information meeting will be held in-person with a virtual option via Microsoft Teams on: Tuesday, June 10, 2025 from 10:00 AM to 12:00 PM, at the offices of the Vermont Agency of Natural Resources, Department of Environmental Conservation, in the Catamount Conference room located at 1 National Life Drive, Davis 2, Montpelier, VT 05602.
