

**Application for Individual Construction (INDC)
 Stormwater Discharge Permit**

Submission of this application constitutes notice that the Applicant(s) in Section A request to be authorized to discharge pollutants to waters of the State, from the project identified in Section C under an Individual Construction Stormwater Discharge Permit. Submission of the application constitutes notice that the Applicant(s) identified in Section A of this form have determined that the project does not qualify for coverage under Vermont's Construction General Permit (CGP) 3-9020, and therefore are requesting construction stormwater discharge permit coverage under an individual permit. In order to be granted coverage, all information required on this form must be provided and an application fee payable to the State of Vermont must be submitted. Adjoining property owners must be noticed by the applicant/application preparer prior to application submittal. Note this application is subject to a minimum 30 day comment period.

A. Applicant Information - As of January 1, 2018 - Email Addresses are required

1. Landowner Name:

2a. Mailing Address:

2b. Town:

2c. State:

2d. Zip:

3. Phone:

*4. Email:

5. Additional Contact Name/Email (if applicable):

5a. Mailing Address:

5b. Town:

5c. State:

5d. Zip:

5e. Phone:

5f. Email:

6. Principal Operator Company Name (if unknown, notify Stormwater Program through ANRonline's Notice of Addition form prior to commencement of construction):

7a. Mailing Address:

7b. Town:

7c. State:

7d. Zip:

8. Phone:

9. Email:

B. Application Preparer Information

1a. Company Name:

1b. Contact Name:

2a. Mailing Address:

2b. Town:

2c. State:

2d. Zip:

3. Phone:

4. Email:

C. Project Information

1. Project Name:

2a. Physical Address of Project:

2b. Town:

2c. State:

2d. Zip:

Project Coordinates (project center in Decimal Degrees with 5 digits to the right of the decimal):		
3a. Latitude:	3b. Longitude:	
4a. Is this project part of a Common Plan of Development? Yes No		
Common Plan of Development definition can be found in Construction General Permit 3-9020, Appendix C – Definitions .		
4b. If yes, specify Common Plan of Development?		
5a. Does this project have any previously issued or pending stormwater discharge permits? Yes No		
5b. If yes, specify most recent permit number or pending application number (if known)?		
6. Parcel(s) SPAN: Enter the 11-digit number that is printed on the property tax bill for the applicable parcel(s). Projects that involve more than 1 parcel shall list all applicable SPANs.		
_____ - _____ - _____	_____ - _____ - _____	_____ - _____ - _____
_____ - _____ - _____	_____ - _____ - _____	_____ - _____ - _____
7. Name of receiving water(s): Receiving water is the name of the waterbody that runoff from the site first enters. In the case of an unnamed water, specify that the receiving water is an unnamed tributary, or wetland, etc. and state the first named receiving water downstream.		
Include a topographic location map - Must provide sufficient information to determine the location of the project. Must be in the form of a USGS topographical map or directional map.		
8. Total Area of Disturbance: _____ Acres		
9. Description of project construction activities:		
D. Plan Set Reference		
Provide a list of all plans applicable to the Erosion Prevention and Sediment Control (EPSC) that have been included with this application. Specify the plan preparer below, and in the space below list the plans using the below format. If more space is necessary, provide as an attachment.		
Format as: Sheet [#], Sheet Title, dated [mm/dd/yyyy], last revised [mm/dd/yyyy].		
Example: Sheet 1, "Existing Conditions Plan, dated 01/02/2019, last revised 01/15/2019).		
Dated plans are required. Using the above format enter the plan set reference for the project in the space below. If more space is required, provide an attachment.		
EPSC Plan Preparer: _____		

E. Adjoining Property Notification

_____ By initialing to the left, I certify that I have notified adjoining property owners of the proposed project using the [DEC Adjoiner](#) form prior to submitting this application.

F. Applicant(s) Certification

I hereby certify that the information provided on this completed application, and included attachments is, to the best of my knowledge and belief, true, accurate, and complete. I agree to abide by all terms and conditions of an individual construction stormwater discharge permit and certify that construction activity will adhere to the authorized Erosion Prevention and Sediment Control Plan for the duration of the project for which this application is submitted.

Landowner Name: _____ Title: _____

Signature: _____ Date: _____

G. Application Preparer Certification

I hereby certify that the information provided on this completed application, and included attachments is, to the best of my knowledge and belief, true, accurate, and complete. I also certify that the Erosion Prevention and Sediment Control Plan designed for this project meets the applicable requirements set forth in the Vermont Standards and Specifications for Erosion Prevention and Sediment Control.

Application Preparer (if applicable): _____ Title: _____

Signature: _____ Date: _____

H. Principal Operator Certification

I hereby request that the Principal Operator listed in Section A be added as co-permittee to the permit for the discharge of stormwater runoff from construction activities identified in this application. In requesting co-permittee status, I agree to comply with all applicable terms and conditions of a construction stormwater discharge permit issued for this project and will comply with the Erosion Prevention and Sediment Control (EPSC) Plans for the duration of the construction activities.

Principal Operator (if known): _____ Title: _____

Signature: _____ Date: _____

Submit this form and the \$ _____ fee via ANR Online :
(< 10 acres = \$1200.00 per application; or >10 acres = \$1800.00 per application)

Refund Policy:

- If an application is modified, withdrawn or denied after technical review has commenced; application review fees are retained.
- If an application is withdrawn prior to commencement of technical review, deemed administratively incomplete and returned to applicant, or determined that a permit is not required; application review fees will be refunded.
