

Electronic Discharge Monitoring Report (eDMR) Training

Dear Wastewater Treatment Facilities & Pretreatment Facilities:

As you know, the EPA is requiring regulated entities to report discharge monitoring report / WR-43 monitoring data electronically. Vermont is rolling out this requirement to facilities in phases. The DEC's Wastewater Program is offering an eDMR training on **Wednesday, May 31, 2017** to regulated entities that have yet to begin electronic reporting or need assistance with electronic reporting discharge monitoring report / WR-43 data. The training will cover how to sign-up, how to begin reporting data electronically, and provide an opportunity to review facility specific reporting scenarios. There is no cost to attend this training; space is limited to 30 people.

Training Date / Time:	Training Location:	How to Sign Up:
May 31, 2017 9 AM – 12 PM	Annex Building 190 Junction Road Berlin, VT 05602	RSVP by sending your name, facility name, email address, and contact information to Katie Parrish by May 26, 2017 : <ul style="list-style-type: none">• kathleen.parrish@vermont.gov• (802) 490-6182

For more information about the eDMR requirements, please visit the Wastewater Program's eDMR webpage:
